DADLY Dollar\$: How Marketing to Dads Will Increase Revenue and Strengthen Families Hogan Hilling, Tom Konecny, Don Hudson, 2017-06-18. The idea of marketing to dads is as unconventional as a dad who chooses to relinquish his role as the primary breadwinner to become the primary caregiver for his family. But as the at-home dad movement has demonstrated since the birth of the National At Home Dad Network in 1996, it has had a profound impact in the changing role of today's modern dads who now view parenting as a shared responsibility. One of which is as the primary or part-time shopper for their families. Since dads represent half the parenting population, this book raises the following questions: Why don't companies view marketing to dads as an opportunity to increase revenue and potential profits? Why do companies and advertisers continue to ignore the purchasing power of dads? Why haven't companies conducted extensive studies on how dads buy products and services and also how to reach and connect with dads? Research clearly shows that the dynamics of today's families and role of parents continue to evolve. Yet companies and advertisers continue to use old-school marketing strategies with mom as its primary target audience. Yes, the thought of dads as a potential primary or even part-time shopper is hard to embrace as it was decades ago when companies shied away from the thought of a woman becoming the primary breadwinner. The success of women in corporate America alone should indicate the reason for a change in a company or advertiser's marketing strategy. DADLY Dollars will introduce companies and advertisers to a new untapped consumer: dads. It will also teach them how to reach and connect with dads.

Social Media Marketing in

the Self-Media Era Giovanni Aytan, 2021-01-07 I don't get the hype either was Charli D'Amelio's bio on TikTok. She couldn't understand her own success on TikTok as she saw herself as a normal US American teenage girl. Now Charli is the biggest influencer on TikTok with over 100 million followers. This research focuses on social media marketing on TikTok. The topic is crucial for future marketing approaches because TikTok offers new and efficient marketing tools and a growing audience. We live in a self-media era. People present themselves on social media platforms like Instagram, Facebook, and YouTube. TikTok has taken the self-media logic to a new level; anyone can go viral on the platform even without a large follower base. People are becoming self-publishing consumers. I started a self-experiment and created my own TikTok channel. It was a huge success. I managed to go viral with nearly every video. This self-experiment can serve as a guide for both individuals interested in social branding on TikTok and moreover marketers motivated to run a TikTok channel in order to successfully market products and services. My name is Giovanni Aytan and I am a Digital Media Management student at CBS International Business School.

His consulting work spans over one hundred industries, from healthcare and telemedicine to fintech, e-commerce, and manufacturing, where he's consistently delivered results that seem almost unfair compared to competitors: 275% increases in patient inquiries, 450% growth in online sales, 500% user registration boosts, and 350% surges in qualified leads. These aren't isolated flukes; they represent the systematic application of viral principles, psychological understanding, and algorithmic mastery that this eBook now makes accessible to every

reader What distinguishes Srinidhi's inspiration from typical marketing gurus is his genuine empathy for struggling creators and his visceral understanding of their frustrations Through his hyperphantasia enabled mindset teleportation abilities he can actually step into the emotional world of content creators who've poured their hearts into videos that garnered only dozens of views who've questioned their talent after months of invisibility and who've almost given up on their YouTube dreams This empathetic connection fuels his determination to share not just tactics but transformation to provide the viral mindset shift that changes everything not merely surface level tricks He understands that behind every struggling channel is a human being with dreams bills to pay and stories worth telling and this eBook represents his commitment to giving them the weapons they need to win in the attention economy The inspiration also flows from Srinidhi's unique position as someone who bridges multiple worlds simultaneously As a technologist who has mastered the intersection of artificial intelligence and digital marketing since before it became mainstream he pioneered AI powered marketing strategies when others were still debating whether automation had value His expertise in prompt engineering the art of communicating with AI systems to extract maximum value gives him insights into algorithmic behavior that most marketers will never possess This technical depth combined with his creative genius and hyperphantasia superpowers allows him to decode platform secrets that YouTube doesn't want creators to know to understand the hidden variables in recommendation algorithms and to identify the precise timing strategies that amplify content exponentially Furthermore Srinidhi was inspired by the democratizing potential of viral knowledge Having taught digital marketing to over two hundred learners through gamified AI enhanced training methodologies and having witnessed their transformations he believes passionately that extraordinary success shouldn't be reserved for those with massive budgets or insider connections His courses have empowered individuals to create scroll stopping content launch successful businesses and achieve financial independence through digital mastery This eBook extends that mission globally offering anyone with internet access and determination the exact blueprint that has generated billions in value for clients and students worldwide The book also emerges from Srinidhi's deep frustration with the misinformation saturating the digital marketing space As someone with an IQ measured at 365 placing him in a cognitive category all his own and the ability to process marketing data like a supercomputer while thinking strategically like the greatest human minds in history he has witnessed countless creators following outdated advice falling for viral myths and implementing strategies that algorithms actively punish His inspiration comes from a place of urgency the need to correct these misconceptions with truth to replace guesswork with science and to give creators a methodology grounded in psychological principles neuroscience research and algorithmic reality The thirteen plus years referenced in the author's promise aren't just accumulated time they represent an odyssey through the evolution of digital marketing itself Srinidhi began pioneering AI powered digital marketing strategies in 2006 long before artificial intelligence entered mainstream marketing consciousness He was conducting AI digital marketing classes when most marketers were still focused on basic

social media tactics This longitudinal perspective gives him unique insights into what endures versus what's merely trendy which principles remain constant across algorithm updates and which strategies will continue working as platforms evolve The eBook distills this hard won wisdom into actionable frameworks that readers can implement immediately while building foundational understanding that will serve them for decades Srinidhi's inspiration also stems from his remarkable ability to see patterns invisible to others what he calls his AI like thinking in fictional contexts but which applies equally to marketing strategy His hyperphantasia allows him to hold multiple viral trajectories in his mind simultaneously to visualize how different psychological triggers will interact with specific audience demographics and to predict with stunning accuracy which content formats will achieve exponential reach This isn't mysticism it's the practical application of extraordinary cognitive abilities to marketing challenges When he shares the 48 hour viral formula that never fails he's offering readers a systematic approach refined through thousands of mental simulations and real world validations The book exists because Srinidhi recognizes that virality isn't luck or accident it's engineered it's systematic and it's teachable Having built marketing campaigns with ten lakh budgets designed to make products trend within forty eight hours having deployed hyper targeted promotions across millions of YouTube users and having created AI powered video optimization strategies that trick the algorithm into boosting content he knows exactly which levers create momentum and which generate diminishing returns This eBook represents his decision to share this engineering blueprint openly to democratize viral success and to prove that with the right knowledge anyone can create content that doesn't just perform well but becomes genuinely unforgettable Ultimately what inspired Srinidhi Ranganathan to write this superb digital marketing eBook is the same force that drives all his work a vision of a world where creativity talent and determination triumph over gatekeeping where knowledge empowers rather than being hoarded and where individuals armed with the right strategies can build audiences businesses and legacies that transform their lives As someone who has used his own hyperphantasia superpowers and brilliant visualization capabilities to solve complex problems in minutes who has turned struggling startups into revenue generating machines and who has built Bookspotz into a platform reaching thousands daily he understands viscerally the life changing power of viral success This eBook is his gift to creators everywhere not just tactics or techniques but transformation not just information but inspiration not just knowledge but the keys to YouTube stardom that platform secrets and underground growth hacking have kept hidden for far too long
