**Social Media Marketing in the Self-Media Era** Giovanni Aytan, 2021-01-07 I don't get the hype either was Charli D'Amelio's bio on TikTok. She couldn't understand her own success on TikTok as she saw herself as a normal US American teenage girl. Now Charli is the biggest influencer on TikTok with over 100 million followers. This research focuses on social media marketing on TikTok. The topic is crucial for future marketing approaches because TikTok offers new and efficient marketing tools and a growing audience. We live in a self-media era. People present themselves on social media platforms like Instagram, Facebook, and YouTube. TikTok has taken the self-media logic to a new level; anyone can go viral on the platform even without a large follower base. People are becoming self-publishing consumers. I started a self-experiment and created my own TikTok channel. It was a huge success. I managed to go viral with nearly every video. This self-experiment can serve as a guide for both individuals interested in social branding on TikTok and moreover marketers motivated to run a TikTok channel in order to successfully market products and services.

**Advances in Design and Digital Communication III** Nuno Martins, Daniel Brandão, 2022-10-26 This book reports on research findings and practical lessons featuring advances in the areas of digital and interaction design, graphic design, and branding design, education, society, and communication in design practice and related ones. Gathering the proceedings of the 6th International Conference on Digital Design and Communication Digicom 2022 held on November 3-5, 2022, as a hybrid event from Barcelos, Portugal, and continuing the tradition of the previous book, it describes new design strategies and solutions to foster digital communication within and between the society, institutions, and brands. By highlighting innovative ideas and reporting on multidisciplinary projects, it offers a source of inspiration for designers of all kinds, including graphic and web designers, UI/UX and social media designers, and to researchers, advertisers, artists, and brand and corporate communication managers alike.

**Internet Memes and Copyright Law** Brian Chun Lok Leung, 2025-09-30 This book explores the intricate relationship between copyright law and internet meme culture, challenging an assumption that copyright is a barrier to digital creativity. Using the lens of internet memes to analyse copyright law in the context of participatory remix culture, the book confronts a common perception that copyright is the destroyer of internet memes on social media platforms. Following the European Union's Copyright Directive, widely known as the Meme Ban, this book critically examines whether copyright might instead be reimagined to foster rather than inhibit re-creations that define internet meme culture. The book argues that this culture directly challenges copyright's core assumptions and proposes a new holistic approach to copyright that distinguishes

between traditional and emergent forms of creative processes Arguing for a flexible interpretation of copyright that limits private proprietary rights in the case of internet memes it provides a legal framework to support socio cultural discourse without undermining copyright s foundational principles Covering core copyright concepts such as authorship idea expression originality fair dealing and user rights the book provides a compelling argument as to how copyright can adapt to the digital age as a protector of cultural expressions ensuring that internet memes are not only preserved but celebrated The book will be of interest to researchers in the field of copyright law the law of emerging technologies and intellectual property law
