**Well-Being in the Library Workplace** Bobbi L. Newman, 2025-03-12 Fostering well being in today's library workplaces is no longer a luxury but a necessity particularly for managers tasked with guiding and supporting their teams. Amidst budget cuts, attempts to ban or restrict books, attacks on library staff online and in person, and potentially hostile and aggressive patrons, taking care of ourselves and our staff by putting good policies and practices into place is more important than ever. In this book, Newman and her expert contributors will lead you through creating an environment that nurtures the health, satisfaction, and well-being of its workers and helps prevent or reduce the internal factors that create an unhealthy workplace. You will receive actionable advice on navigating the pitfalls of vocational awe which can lead to unrealistic expectations and self-neglect, setting and recalibrating healthy boundaries, approaching difficult conversations by creating spaces for positive staff communication, overcoming limited budgets, the proper mindset for encouraging realistic performance expectations among employees using recognition, appreciation, and staff professional development as tools for wellness, nurturing social connections and collaboration to combat loneliness, effective techniques for addressing sensitive issues such as disabilities, confronting anti-fat bias and moral injury, emotional and invisible labor mitigation, and self-care methods for library leaders at risk of burnout.

**RETHINK Design Guide** Nicola Gillen, Pippa Nissen, Julia Park, Adam Scott, Sumita Singha, Helen Taylor, Ian Taylor, Sarah Featherstone, 2021-02-18 The world has changed. How will society emerge post-pandemic? Will we take the opportunity to reset the status quo? And if so, what possibilities are there for architects to take the initiative in designing this new world? This innovative design guide draws together expert guidance on designing in the immediate aftermath of the pandemic for key architectural sectors: housing, workplace, civic and cultural, hospitality, education, infrastructure, and civic placemaking. It provides design inspiration to architects on how they can respond to the challenges and opportunities of a post-pandemic environment and how architects ensure they are at the forefront of the best design in this new world. Looking at each sector in turn, it covers the challenges specific to each and how delivering these designs might differ from the pre-pandemic world. As well as post-pandemic design, the vital issue of climate change will be threaded through each sector with many cross-overs between designing for the climate emergency and designing for a world after a pandemic. Both seek to make the world a safer, happier, and more resilient place. Written by a set of contributing design experts, this book is for all architects, whether sole practitioners or working in a larger practice. As well as inspirational design guidance, it also provides client perspectives crucial for understanding how clients are planning for the future too.
