Instagram has weighted the various data points that they put into their algorithm we do know that Instagram's back end technology now focuses on relevancy serving up the posts that are most likely to relate to certain users based on their activity on the site So every time a user clicks through a post or spends a certain amount of time looking at a certain influencer Instagram is capturing that data in some way and building it into their engine to ensure that posts that users won't care about are less likely to show up in their feed We do know however that Instagram is looking at the following Timely content This is all about recency meaning if a user hasn't logged in for a while they won't have to scroll through outdated and no longer relevant posts They'll be shown timely content that matters to them Interest This is really the secret sauce as Instagram is paying attention and will serve content that it believes the user will be interested in Relationships Instagram knows what photos users tag and where they comment So if a user has interacted in some way with certain brands in the past they are far more likely to be served content from that brand or similar brands in the future For marketers this is a great thing It means that as Instagram learns more about your brand your posts and advertisements are more likely to get in front of your niche or target audience A few notes about Instagram Shopping With the release of Instagram Shopping in late 2016 Instagram literally turned their platform into an online marketplace While it is still a common practice to include website links to your business site and even to a product page now it is possible to allow the customer to transact directly on the Instagram platform For businesses that want to enable the Shopping capability they need to meet the following requirements You must have an Instagram business profile That business profile needs to be connected to a Facebook catalog Your company's registered headquarters location must be located in one of the Instagram approved countries Items for sale must be physical goods that comply with the trading guideline and terms of use set forth by Instagram As this Instagram Marketing Guide is intended as a resource for those getting started with Instagram marketing we will not be providing a deep dive of the Instagram Shopping capability Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book *Unlock Your Potential: Transform Your Personal Brand Online with Our Ultimate Guide* SATAPOLCEO, Have you ever felt lost in the vast sea of the internet struggling to make your unique voice heard Have you faced challenges in building your personal brand online unsure of where to start or how to stand out If these questions resonate with you then The Ultimate Guide to Building Your Personal Brand Online From Start to Success is your answer Why This Book In today's digital age having a strong personal brand is more important than ever It opens doors to new opportunities helps you connect with like minded individuals and sets you apart in your industry But building a personal brand is no easy task It requires strategy consistency and a deep understanding of digital marketing That's where this book comes in Experience the Journey Imagine having a step by step guide that walks you through every aspect of building your personal brand online This book is crafted to be that guide packed with actionable insights real life examples and proven strategies Have you ever experienced these common challenges Lack
