[Conflict of interests in high-tech investment advisory](#) Daniel Favoretto, 2024-02-21 What are the potential sources of conflict of interests in investment advisory services and how should the law design legal tools of retail investor protection? These are the questions addressed by this book which explores the new legal challenges of investor protection in the context of digital investment platforms and genAI advisors. Towards a Post-Covid Global Financial System M. Kabir Hassan, Aishath Muneeza, Adel M. Sarea, 2022-01-20 In *Towards a Post Covid Global Financial System* a team of experts explore how COVID 19 has affected the most vulnerable parts of the global economy, how it has been met by Islamic banking and finance and how the principles of Islamic social finance could be used to have a fairer, more resilient Islamic finance system for all. Oppressed by Debt Saul Schwartz, 2021-12-30 This edited collection brings together essays that explore personal debts to government. Intensive collection efforts by governments in need of revenue often cause hardship, whether it is the poor in the United States going to jail because of unpaid fines, low-income English people being evicted because they paid their council taxes but could then not pay their rent, or poor former students having tax refunds or social benefits taken by the government when they have defaulted on their student loans. Student loans, fines and fees arising from the justice system, benefit overpayments and unpaid taxes have all ballooned in the past decade, but no other volume comprehensively addresses the various ways in which governments have become privileged creditors using their power to collect debts owed to them by their citizens. With each essay emphasizing a particular kind of debt to government, the book focuses on what happens when citizens cannot pay the debts they owe to their governments. Contributors offer pragmatic options to facilitate a movement to soften the stance of governments toward those who owe them money. The insights in this collection will be of relevance to students and academics in criminology, sociology, public policy and economics, as well as policymakers and government officials interested in effecting change in this area.
