

Application for an environmental permit Part A – About you

You will need to fill in this part A if you are applying for a new permit, a permit for change, an existing permit or some other permit, or want to transfer an existing permit to yourself. Please check that this is the latest version of the form available from our website.

Please read through this form and the guidance notes that come with it.

The form can be:

- 1) saved onto a computer and then filled in. Please note that the form follows a logic that most companies will agree or disagree with on a previous question, so you may not be able to enter text in some boxes.
- 2) printed off and filled in by hand. Please write clearly in the answer spaces.

Notes: If you believe including information on a public register would not be in the interests of national security you must declare under penalty of law that you have told the Secretary of State. We will not include this information in the public register unless directed to do so.

It will take less than one hour to fill in this part of the application form.

Where you see the term "document reference" on the form, give the document references and send the documents with the application to us when you've completed it.

Bespoke Environmental Permit Application:

Environmental Law for Sustainable Construction Francine Baker, Jennifer Charlson, 2023-09-25 Environmental Law for Sustainable Construction gives a practical overview of key areas of environmental law as it affects the construction sector. It is suitable for a broad range of practitioners in the architecture, engineering and construction industry who require a clear reference to help navigate the complexity in this area of law. Manual of Environmental Management Adrian Belcham, 2014-09-25 Manual of Environmental Management is a practical guide for those involved in the control and reduction of environmental impacts in organisations. This comprehensive and practical guide takes you through the main environmental challenges organisations face and the improvement strategies used to manage them. Chapter by chapter Manual of Environmental Management discusses the fundamental issues and principles surrounding environmental policy, law and management and provides crucial information on how to respond and implement environmental programmes. This book is the perfect reference tool for the environmental professional and an invaluable study text for those preparing for professional examinations such as the NEBOSH Environmental Diploma and IEMA Associate Membership Exam.

Environmental Management in Organizations John Brady, Alison Ebbage, Ruth Lunn, 2013-04-15 Environmental issues can present some daunting operational concerns for all types of organization, whether in the private, public and voluntary sectors. Managing them requires environmental professionals with a working knowledge of the rapidly developing body of regulatory measures. This new edition of Environmental Management in Organizations provides all the management tools, performance measures and communication strategies that organizations need to manage their environmental responsibilities effectively. Leading experts on each topic provide focused explanations and clear practical guidance as well as setting out the context and the key environmental and management drivers. This edition significantly updates the original handbook to take account of developments in the environmental agenda, including new dedicated chapters on climate change, energy, transport, biodiversity and chemicals. Published with IEMA.

OECD Environmental Performance Reviews: United Kingdom 2022 OECD, 2022-06-22 Over the past decade the United Kingdom has reduced several environmental pressures while growing its economy. Ahead of its presidency of the 2021 UN Climate Change Conference of the Parties, it has led the way by raising its national ambition. However, air pollution, deteriorating natural assets and missed biodiversity targets are all concerns. **Wolf and Stanley on Environmental Law** Susan Wolf, Neil Stanley, 2013-10-23 Written with real clarity by authors teaching and researching in the field, Wolf and Stanley on Environmental Law offers an excellent starting point for both law and non-law students encountering this diverse and rapidly developing subject for the first time. The focus of the book is on the regulation and control of pollution and includes chapters on environmental permitting, waste management, air and water pollution and contaminated land. The book also includes the administration and enforcement of environmental law, EU environmental law, the environmental torts and the private regulation of environmental law. The book is supported by a

range of learning features designed to help students Consolidate your learning Chapter learning objectives and detailed summaries clarify and highlight key points Understand how the law works in practice Law in Action features demonstrate the application of pollution control law Plan your research Detailed end of chapter further reading sections outline articles books and online resources that provide next steps for your research This sixth edition has been updated and revised to take into account recent developments in the subject including coverage of the Environmental Permitting England and Wales Regulations 2010 developments in the Environment Agency enforcement and sanctions policy documents updates relating to the defence of statutory authority in the tort of private nuisance and current issue relating to compliance with the Aarhus Convention Suitable for students of environmental law and the wider environmental studies Wolf and Stanley on Environmental Law is a valuable guide to this wide ranging subject Environmental Permit Application Package Connecticut. Department of Environmental Protection,1994 **Asper review of international business and trade law** ,2003 Environmental Manager ,1995 Environmental Permits Donna Rona,2012-12-06 Environmental permits enable regulatory agencies to control the disturbance and degradation of the environment caused by man s activities Created by governments through legislation the permit processes are administered by elected officials Environmental legislation is relatively new as an independent field of the law the laws themselves are primarily a conglomeration of older legal doctrines from other fields of law modified and adapted for particular situations Landau and Rheingold 1971 Like other laws environmental laws are meant to serve and protect the rights and well being of the public However like other laws they have created confusion a proliferation of costly paperwork and some inequities Numerous statutes dealing with most aspects of pollution exist at every level of government so many in fact that they frequently conflict and overlap These statutes establish a public policy toward polluters They also empower the regulatory bodies that issue permits It would be impossible to compile a list of requirements for each type of permit Therefore this book will acquaint the reader with the common aspects of environmental permits their terminology components and application processes This book covers the permit process from initial agencies applicant contacts through application parts and procedures to application approval Special emphasis has been placed on bringing together copies of laws and lists of agencies as appendices The appendices give the reader easy access to materials that will help clarify the permit process *The Parliamentary Debates (Hansard)*.
