The following information is provided by **Law Enforcement Services, LLC (L.E.S.)** as a training guide for basic pistol shooting techniques. **L.E.S.** does not assume any responsibility for the use or misuse of information contained in this article.

This training guide is divided into ten sections which are highlighted for easy reference. To become proficient with the handgun, these techniques must be practiced. Firearms training may be defined as continual application of proper techniques which over time become habit.

1. General Safety Rules

Safe weapon handling begins with four steps whenever you touch a weapon:

1. Handle all weapons as if they are loaded.
2. Keep the weapon pointed in a safe direction.
3. Keep your finger(s) out of the trigger guard.
4. Immediately check to make certain the weapon is unloaded. Clear the weapon if necessary.

Revolvers are checked by simply opening the cylinder and making a visual observation of the cylinder and the chamber. Semiautomatics are checked by first removing the magazine, second locking the slide to the rear, and third looking and feeling into the chamber through the ejection port.

Safety also includes proper weapon and ammunition storage. Always store weapons and ammunition in separate locations. Weapons should be properly secured, such as in a locked gun safe or utilizing a trigger lock. Never store a loaded weapon. Transport all weapons in a closed container specifically designed to transport handguns. Again, keep ammunition and weapons separated during transportation.

Range safety rules:

1. Treat all weapons as if they are always loaded.
2. All weapons should be holstered until you are at the firing line ready to shoot.
3. If you do not have a holster then carry all semiautomatic weapons with magazines out and actions open until on the firing line and ready to load. Revolvers should be carried with the cylinder open.
4. While on the firing line keep the muzzle of the weapon pointed downrange at all times.
5. Never sweep the muzzle of the weapon across any portion of your body.
6. Do not load the weapon until directed by the range officer.
7. If you drop anything bench (or holster) the weapon before you pick it up.
8. A benched weapon should be decocked with safety engaged or the magazine should be out with the slide locked to the rear.
9. When you are finished shooting clear (empty) all weapons prior to leaving the firing line.
10. Always wear proper ear and eye protection while shooting.
