Bassnett Translation Studies :

Translation Studies Susan Bassnett, 2002 In the late 1970s a new academic discipline was born Translation Studies We could not read literature in translation it was argued without asking ourselves if linguistic and cultural phenomena really were translatable and exploring in some depth the concept of equivalence When Susan Bassnett's Translation Studies appeared in the New Accents series it quickly became the essential introduction to this new subject Susan Bassnett tackles the crucial problems of translation and offers a history of translation theory beginning with the ancient Romans and encompassing key twentieth century structuralist work She then explores specific problems of literary translation through a close practical analysis of texts and completes her book with extensive suggestions for further reading Twenty years after publication the field of translation studies continues to grow Updated for the second time Susan Bassnett's Translation Studies remains essential reading for anyone new to the field

Reflections on Translation Susan Bassnett, 2011-06-17 This collection of essays brings together a decade of writings on translation by leading international translation studies expert Susan Bassnett The essays cover a range of topics and will be useful to anyone with an interest in how different cultures communicate Bassnett draws upon her personal experience to explore issues such as why the same

things cannot be expressed in all languages why translators in war zones risk their lives for their work whether humour can travel across cultures why translated menus are often so bad and whether poetry does indeed get lost in translation

Translation and World Literature Susan Bassnett, 2018-10-03 Translation and World Literature offers a variety of international perspectives on the complex role of translation in the dissemination of literatures around the world Eleven chapters written by multilingual scholars explore issues and themes as diverse as the geopolitics of translation cosmopolitanism changing media environments and transdisciplinarity This book locates translation firmly within current debates about the transcultural movements of texts and challenges the hegemony of English in world literature Translation and World Literature is an indispensable resource for students and scholars working in the fields of translation studies comparative literature and world literature

The Translator as Writer Susan Bassnett, Peter Bush, 2007-11-15 Over the last two decades interest in translation around the world has increased beyond any predictions International bestseller lists now contain large numbers of translated works and writers from Latin America Africa India and China have joined the lists of eminent bestselling European writers and those from the global English speaking world Despite this translators tend to be invisible as are the processes they follow and the strategies they employ when translating The Translator as Writer bridges the divide between those who study translation and those who produce translations through essays written by well known translators talking about their own work as distinctive creative literary practice The book emphasises this creativity arguing that translators are effectively writers or rewriters who produce works that can be read and enjoyed by an entirely new audience The aim of the book is to give a proper prominence to the role of translators and in so doing to move attention back to the act of translating away from more abstract speculation about what translation might involve

Post-colonial

Political Discourse, Media and Translation Christina Schaeffner,2009-12-14 This volume addresses the role played by translation in international political communication and news reporting and brings to light the usually invisible link between politics media and translation The contributors explore the interrelationship between media in the widest sense and translation with a focus on political texts institutional contexts and translation policies These topics are explored from a Translation Studies perspective thus bringing a new disciplinary view to the investigation of political discourse and the language of the media The first part of the volume focuses on textual analysis investigating transformations that occur in translation processes and the second part examines institutional contexts and policies and their effects on translation production and reception *Comparative Literature* Susan Bassnett,1993-10-08 This major new introduction to comparative literature is for the students coming to the subject for the first time Through an examination of a series of case studies and new theoretical developments Bassnett reviews the current state of comparative literature world wide in the 1990s In the past twenty years of a range of new developments in critical theory have changed patterns of reading and approaches to literature gender based criticism reception studies the growth of translation studies deconstruction and orientalism all have had a profound impact on work in comparative literature Bassnett asks questions not only about the current state of comparative literature as a discipline but also about its future Since its beginnings in the nineteenth century comparative literature has been closely associated with the emergence of national cultures and its present expansion in many parts of the world indicates that this process is again underway after a period of narrowly Eurocentric research in the field

Translation Studies Susan Bassnett-McGuire,1988 **Debates in Translation Studies** Susan Bassnett,David Johnston,2024-12-23 Translation Studies has been an extraordinary success story which grew out of the work of a small

group of international scholars in the 1970s and has become a global phenomenon. As the field has rapidly expanded it has also diversified. This collection of essays by world leading translation specialists sheds light on some of the major shifts in thinking about translation that are taking place today. The authors here engage with the most contentious issues within translation studies and cover topics ranging from examining the scope for machine and human translation to develop together to addressing the role of translation in the age of the Anthropocene and considering how we prepare translators for the complexities of contemporary communication. Written in an accessible and engaging style and with an emphasis on challenging orthodoxies and encouraging critical thinking this is essential reading for all advanced students of translation studies and literature in translation.

Translation studies: Central Issues: Language and culture; Types of translation; Decoding and recoding; Problems of equivalence; Loss and gain; Untranslatability; Science or 'secondary activity'? Susan Bassnett-McGuire, 2002

Reflexive Translation Studies Silvia Kadiu, 2019-04-08. In the past decades translation studies have increasingly focused on the ethical dimension of translational activity with an emphasis on reflexivity to assert the role of the researcher in highlighting issues of visibility, creativity and ethics. In *Reflexive Translation Studies* Silvia Kadiu investigates the viability of theories that seek to empower translation by making visible its transformative dimension, for example by championing the visibility of the translating subject, the translator's right to creativity, the supremacy of human translation or an autonomous study of translation. Inspired by Derrida's deconstructive thinking, Kadiu presents practical ways of challenging theories that argue reflexivity is the only way of developing an ethical translation. She questions the capacity of reflexivity to counteract the power relations at play in translation between minor and dominant languages, for example, and problematises affirmative claims about self-knowledge by using translation itself as a process of critical reflection. In exploring the interaction between form and content, *Reflexive Translation Studies* promotes the need for an experimental, multi-sensory and intuitive practice which invites students, scholars and practitioners alike to engage with theory productively and creatively through translation.

Handbook of Translation Studies Yves Gambier, Luc van Doorslaer, 2011-12-21. As a meaningful manifestation of how institutionalized the discipline has become, the new *Handbook of Translation Studies* is most welcome. It joins the other signs of maturation such as Summer Schools, the development of academic curricula, historical surveys, journals, book series, textbooks, terminologies, bibliographies and encyclopedias. The HTS aims at disseminating knowledge about translation and interpreting and providing easy access to a large range of topics, traditions and methods to a relatively broad audience, not only students who often adamantly prefer such user-friendliness, researchers and lecturers in Translation Studies, Translation, but also scholars and experts from other disciplines among which linguistics, sociology, history, psychology. In addition, the HTS addresses any of those with a professional or personal interest in the problems of translation, interpreting, localization, editing, etc., such as communication specialists, journalists, literary critics, editors, public servants, business managers, intercultural organization specialists, media

specialists marketing professionals Moreover The HTS offers added value First of all it is the first Handbook with this scope in Translation Studies that has both a print edition and an online version The advantages of an online version are obvious it is more flexible and accessible and in addition the entries can be regularly revised and updated The Handbook is variously searchable by article by author by subject A second benefit is the interconnection with the selection and organization principles of the online Translation Studies Bibliography TSB The taxonomy of the TSB has been partly applied to the selection of entries for the HTS Moreover many items in the reference lists are hyperlinked to the TSB where the user can find an abstract of a publication All articles between 500 and 6000 words are written by specialists in the different subfields and are peer reviewed Last but not least the usability accessibility and flexibility of the HTS depend on the commitment of people who agree that Translation Studies does matter All users are therefore invited to share their feedback Any questions remarks and suggestions for improvement can be sent to the editorial team at hts.lessius.eu
