Beethoven Sonata Analysis Opus 2:

The Collected Essays of Milton Babbitt Milton Babbitt, 2012-06-24 Like his compositions Milton Babbitt's writings about music have exerted an extraordinary influence on postwar music and thinking about music. In essays and public addresses spanning fifty years Babbitt has grappled profoundly with central questions in the composition and apprehension of music. These writings range from personal memoirs and critical reviews to closely reasoned metatheoretical speculations and technical exegesis. In the history of music theory there has been only a small handful of figures who have produced work of comparable stature. Taken as a whole Babbitt's writings are not only an invaluable testimony to his thinking, a priceless primary source for the intellectual and cultural history of the second half of the twentieth century, but also a remarkable achievement in their own right. Prior to this collection Babbitt's writings were scattered through a wide variety of journals, books, and magazines, many hard to find and some unavailable, and often contained typographical errors and editorial corruptions of various kinds. This volume of almost fifty pieces gathers, corrects, and annotates virtually everything of significance that Babbitt has written. The result is complete, authoritative, and fully accessible, the definitive source of Babbitt's influential ideas. [Analyses of Nineteenth- and Twentieth-Century Music, 1940-2000](#) D. J. Hoek, 2007-02-15 The latest volume in the Music Library Association's Index and Bibliography series, *Analyses of Nineteenth and Twentieth Century Music, 1940-2000*, features over 9,000 references to analyses of works by more than 1,000 composers of the nineteenth and twentieth centuries. References that address form, harmony, melody, rhythm, and other structural elements of musical compositions have been compiled into this valuable resource. This update of Arthur Wenk's well-known bibliography, last published in 1987, includes all the original entries from that work along with additional references to analyses through 2000. International in scope, the bibliography covers writings in English, French, German, Italian, and other European languages and draws from 167 periodicals as well as important theses, dissertations, books, and *Festschriften*. References are arranged alphabetically by composer and include subheadings for specific works and genres. This bibliography provides students, scholars, performers, and librarians with broad coverage, detailed indexing, and ready access to a large and diverse body of analytical literature on nineteenth and twentieth-century music.
