"[o]ffers an essential corrective to the fantasies and misinformation about Middle Eastern cultures." —Publishers Weekly

# JOHN R. BRADLEY

SEX IN THE MIDDLE EAST

**Gary Leiser** 

**Prostitution in the Eastern Mediterranean World** Gary Leiser, 2016-12-21 This groundbreaking book challenges many stereotypical views about the historical practice of prostitution Based on twenty years research and organized by region it charts the history of sex for sale in those chief centres of the late antique and medieval East whether in Arabia Egypt Syria or Anatolia Ranging extensively from 300 CE to 1500 or from the reign of Theodosius to the early Ottoman period Gary Leiser meticulously examines the available sources and argues for a reappraisal of the so called oldest profession He suggests that it was never prohibited that there was remarkable continuity between Christian and Muslim rule and that prostitution was institutionalized as a service industry at various times Indicating that sex work in the East had its own distinctive character and meanings for example that it was taxed from the time of Caligula onwards and that prostitutes were expected to retain tax receipts the book brings continually fresh insights to a controversial subject Global Women, **Colonial Ports** Liat Kozma, 2017-01-25 Combines analysis of transnational prostitution and traffic in women with a social history of the League of Nations and interwar globalization Global Women Colonial Ports is a transnational history of state regulated prostitution in the Middle East and North Africa between the two world wars Beginning with international efforts to eradicate traffic in women and children Liat Kozma examines French and British policies regarding local and foreign prostitutes in the region and shows how these policies affected and interacted with global migration routes of prostitutes and procurers In so doing she reveals how colonial domination mediated global mobility of people practices and ideas Kozma weaves together the perspectives of colonial and local feminists with those of medical doctors demonstrating that debates on prostitution were globalized and that transnational networks of knowledge and activism existed She also explores the League of Nations involvement in this social issue As a history of the Middle East the book joins recent scholarship on modern globalization and the integration of the region in global economic activist social and religious interconnectedness Meticulously researched carefully written and compellingly argued this book breaks new ground Kozma looks across the region at a fascinating social issue regulated prostitution tying it to global concerns Moving adroitly from international law and urban planning to migration disease and abolition she helps craft a new understanding of mobility in the interwar period This is transnational history at its best Beth Baron author of The Orphan Scandal Christian Missionaries and the Rise of the Muslim Brotherhood
