value as a record of an important early American and for its literary style. It is often considered the first American book to be taken seriously by Europeans as literature. William Dean Howells in 1905 asserted that Franklin's is one of the greatest autobiographies in literature and towers over other autobiographies as Franklin towered over other men. However, Mark Twain's essay *The Late Benjamin Franklin* (1870) provides a less exalted reaction, albeit somewhat tongue in cheek, for example claiming that his example had brought affliction to millions of boys since whose fathers had read Franklin's pernicious biography. D. H. Lawrence wrote a notable invective against Middle-sized sturdy snuff-coloured Doctor Franklin in 1923, finding considerable fault with Franklin's attempt at crafting precepts of virtue and at perfecting himself. Nevertheless, responses to *The Autobiography* have generally been more positive than Twain's or Lawrence's, with most readers recognizing it as a classic of literature and relating to the narrative voice of the author. In this work, Franklin's persona comes alive and presents a man whose greatness does not keep him from being down to earth and approachable, who faces up to mistakes and blunders. Errata he has committed in life and who presents personal success as something within the reach of anyone willing to work hard enough for it.
