Misra,2021-01-01 Each institution has its own history geography social contexts opportunities and constraints Higher Education institutions like universities are no exception to it There is a common thread that runs through them all they train the youth the citizens of tomorrow to shape their own future and reshape the future of their motherland and thus the future of the world The purpose of this book is to create a new and brighter future for Allahabad University the Alma mater of the author The book shows the way to reshape the University into one of the top 20 universities of India in a decade or so The ups and downs which Allahabad University has gone through since India won its Independence in 1947 the efforts made by the author for 36 months 18 January 1984 17 January 1987 to take it back on a fast track of development and what happened to the University after it was taken over by the Central Government and renamed as Allahabad Central University in 2005 constitute the main thrusts of the book The suggestions made to bring it back to the path of recovery and development are relevant not only to this but other universities and institutions of higher education too **Southern Economist** ,2012

THE INDIAN SOCIETY: Thoughts on our Past, Present and Future from Advaita Vedanta Subhash Chandra Gahlawat,Team ARSu,2020-07-13 From the time of 19th century British employed people passing out from Oxford and Cambridge University to study the thousands of year old Sanskrit texts of India and interpret them in a way that the Indian people never become one Inspired by the new set of values and might of British Empire these people also considered as Orientalist started the work of reading Sanskrit texts and present them in a way which makes people feel that British ways are better than those scriptures While the prime aim of these interpretations was to hide the robbery of Indian resources some considered it as reality and helped the British This help became so vital for the British that a nation which was considered as the golden bird on earth and even after centuries of invasions and loot still contributing 20 24% of world GDP became one of the poorest nations of the world contributing 1 2% of world GDP with frequent incidents of riots famine etc Somewhere one orientalist identified it and in his old age realized that he wasted all his life and knowledge in just showing that the 3 000 year old Indian Scriptures as per his idea on the date though they are even older are inferior to present British
