Inaccessible Access Kelly Fagan Robinson, Mark T. Carew, Nora Ellen Groce, 2024-11-15 *Inaccessible Access* ethnographically addresses barriers to inclusion within knowledge making. It focuses on the social, environmental, communicative, and epistemological barriers that people with disabilities confront and embody throughout the course of their learning and living and in the specific context of their higher education institutions and in research. It is presented by a neurodiverse disabled and non-cis cohort of authors, all of whom acknowledge a continuum of inaccessibility that is available to each contributor, contingent on their inherent intersectionalities and alterities. The authors and editors of this book foreground the work that has yet to be done on recognizing the value of nonnormative ways of approaching being-in and knowing research and higher education, particularly in cases where disability-centered epistemologies are sidelined in confrontation with institutional norms, even within existing discourses concerning equality and alterity. *Remote Learning Made Easy During the Pandemic* Rupinder Ganaka, 2025-01-03 The illustrations in this book are created by Team Educoback. *Remote Learning Made Easy During the Pandemic* is an authoritative guide designed to support students and faculty navigating the challenges of remote education during the COVID-19 pandemic.
