Hi! It's great to hear you, Jane. Jane, we've heard that there's a groundbreaking discovery in the realm of space exploration. Can you give us a hint about what's been found?

Jane 0:00

Absolutely, Mark! Scientists have recently made an astonishing discovery—a new exoplanet with potential habitable conditions.

This celestial body has the right distance from its star, and initial observations indicate the presence of liquid water.

It's a significant step in our search for extraterrestrial life.

Mark 0:00

That's incredible! I'm sure **our listeners** are eager to learn more.

When can we expect to get more details about this exciting finding?

Learning and Experiencing Cryptography with CrypTool and SageMath Bernhard Esslinger, 2023-12-31 This book provides a broad overview of cryptography and enables cryptography for trying out It emphasizes the connections between theory and practice focuses on RSA for introducing number theory and PKI and links the theory to the most current recommendations from NIST and BSI The book also enables readers to directly try out the results with existing tools available as open source It is different from all existing books because it shows very concretely how to execute many procedures with different tools The target group could be self learners pupils and students but also developers and users in companies All code written with these open source tools is available The appendix describes in detail how to use these tools The main chapters are independent from one another At the end of most chapters you will find references and web links The sections have been enriched with many footnotes Within the footnotes you can see where the described functions can be called and tried within the different CrypTool versions within SageMath or within OpenSSL

Healthcare Guide to the Internet, 1999 *Law's Documents* Katherine Biber, Trish Luker, Priya Vaughan, 2021-12-29 Illuminating their breadth and diversity this book

presents a comprehensive and multidisciplinary view of legal documents and their manifold forms uses materialities and meanings In 1951 Suzanne Briet a librarian at the Bibliotheque Nationale in Paris famously said that an antelope in a zoo could be a document thereby radically changing the way documents were analysed and understood In the fifty years since this pronouncement the digital age has introduced a potentially limitless range of digital and technological forms for the capture and storage of information In their multiplicity and their ubiquity documents pervade our everyday life However the material intellectual aesthetic and political dimensions and effects of documents remain difficult to pin down Taking a multidisciplinary and international approach this collection tackles the question what is a legal document in order to explore the material aesthetic and intellectual attributes of legal documentation the political and colonial orders reflected and embedded in documents and the legal archival and social systems which order and utilise information As well as scholars in law documentary theory history Indigenous studies art history and design theory and practice this book will also appeal to those working in libraries archives galleries and museums for whom the ongoing challenges of documentation in the digital age are urgent and timely questions

Collection Management in the Cloud Kayla Kipps, Allison Kaiser Jones, 2022-03-11 As remote work has become routine cloud based technology tools have become increasingly necessary to communicate with other library staff and with faculty and staff to continue providing seamless and uninterrupted access to library resources and collections for our campus community Cloud based technology tools such as Google Forms and Google Sheets are used to gather faculty requests for collection development tools such as Tableau are used to illustrate material budget balances and platforms such as Trello have been adopted to track subscription renewal cycles and manage other projects This guide discusses the benefits of using these powerful cloud based and little to no additional cost technology tools through the lens of a particular area in librarianship such as documentation data and project management communication data storage and data visualization While the real world examples provided throughout focus on technical services staff operations specifically acquisitions and electronic collection management each tool s features and use cases are transferable among all areas of librarianship This guide provides insights into how collaborative dynamic and accessible these cloud based solutions are for a technologically shifting workplace as well as considers the challenges to adopting cloud based solutions such as administrative buy in aversion to change and steeper learning curves as well Readers will gain practical experiential examples that have been instrumental in creating efficiencies in collection management workflows for technical services staff The use cases illustrated exemplify enhancements that librarians can incorporate into their own collection management practices to further engage with their colleagues their patrons and their larger communities more effectively and efficiently
