**Key Topics in Anaesthesia** T. M. Craft,Timothy M. Craft,Paul M. Upton,2004-11-11 This book contains essential information on 100 major subjects pertinent to modern clinical practice in anaesthesia Wherever possible the information is presented in a uniform systematic format This format is unique in an anaesthetic text and encourages the reader to adopt a problem based approach to clinical scenarios As such the book is suitable as a revision aid for the trainee anaesthetist prior to a postgraduate examination anaesthetists should find it useful for refreshing their memory of specific topics between cases Every operating theatre should also have a copy for reference The information on each topic has been compiled from a variety of sources including journal articles reviews course notes lectures and original research problems anaesthetic management assessment and premedication conduct of anaesthesia and postoperative care further reading and related topics of interest It is intended for trainee anaesthetists studying for a postgraduate examination eg the FCAnaes in the UK the FFARCSI in Ireland the European Academy of anaesthesia examination and Board Certification in the USA It should also prove of interest to qualified anaesthetics anaesthetic assistants nurse anaesthetists not UK and surgeons

**CRQs for the Final FRCA** M. Ashraf Akuji,Fiona Martin,David Chambers,Elizabeth Thomas,2019-06-06 Invaluable CRQ practice papers for the new Final FRCA format An essential revision text for all candidates      **Equipment in Anaesthesia and Critical Care** Daniel Aston,Angus Rivers,Asela Dharmadasa,2013-10-15 Highly commended in the Anaesthesia category of the 2014 BMA Medical Books awards From reviews Altogether this textbook offers an excellent detailed overview of basic principles mechanics and physics of technical equipment used in anaesthesia and intensive care medicine Critical Care Feb 2014 This book is excellent I have read a number of equipment related books and found most of them stale and filled with minutia Instead this fresh look at equipment really makes it interesting to read and keeps your attention With sections that give quick answers to how things work advantages and disadvantages in an easy to read format you get exactly what you want to know RIGHT away In addition the full color photos and well done charts really add to the depth of this book It is my opinion this may be one of the best books on the market for quick review of anesthesia and critical care equipment Let s be honest no one is sitting at home reading equipment books for pleasure so when you NEED the information you likely need it right away This book does exactly that easy format clear and concise information with everything you need to know about a

piece of equipment easy to find and within a page or two I would recommend this to all trainees in anesthesia but also for those providers who like to be prepared in the operating room to deal with any issue that might arise [www.nurseanesthesia.org](http://www.nurseanesthesia.org) 8 Feb 2014 Equipment in Anaesthesia and Critical Care specifically follows the syllabus published by the Royal College of Anaesthetists and is the perfect guide for candidates studying for their FRCA qualifications The book is beautifully illustrated and features high quality colour photographs throughout The text is engaging and comprehensive relating each piece of equipment back to its basic physics mechanics and clinical context The clear concise and standardised format means that information is easy to access and perfect for revision Every major piece of equipment is featured alongside colour photos reproducible line diagrams and information on its uses how it works pros and cons and safety considerations The authors all senior registrars in anaesthesia and critical care appreciate exactly what candidates need to know to pass the FRCA exam They have identified and tackled difficult subjects which are often glossed over or omitted in other resources to produce a book that is comprehensive engaging and to the point In addition to FRCA candidates the book is also suitable for operating department practitioners critical care staff and physicians with an interest in anaesthesia or critical care **Short Answer**

**Questions in Anaesthesia and Critical Care Medicine** Kingsley Enohumah, Patrick Olomu, Charles Imaengiyaye, 2015-08-29 The short answer questions in anaesthesia and critical care medicine is an invaluable guide to the Part 1 Fellowship examination In this book thirty four sample Short Answer Questions and model answers are presented The topics cover the core medical specialties of medicine surgery obstetrics and gynaecology and pediatrics as well as the principles of anaesthetic practice pain management intensive care physics and anaesthetic monitoring These topics are very likely to be encountered in some form in the examination Each question is accompanied by a full model answer structured laid out to enable the candidate to practise sitting whole papers of 12 questions or to attempt individual questions Written by a group of authors who have extensive experience with teaching and mentoring trainees with one of the authors as examiner for the Part 1 and Part fellowship examinations for several years this book is an invaluable tool for your exam preparation

*Key Topics in Anaesthesia* T. M. Craft, P. M.
