**Management Accounting** Professor Carsten Berkau, 2020-04-20 Management Accounting is written for students in international Business Management study programs. It covers the widely applied syllabus of Cost Accounting and Management Accounting at universities on bachelor's and master's level. The book is based on more than 20 years academic teaching experience in Germany and at international universities in South Africa, Malaysia, China, the Netherlands, and South Korea. In this text book, the application of methods and instruments comes first. Management Accounting follows a case study based approach. All cases are taken from previous exam papers and explained in detail. The text book starts with a case study of a manufacturing company and compares Financial Accounting to Management Accounting. It covers two points of view: 1. a General Management view with aspects of business planning, cost-volume-profit analysis, degree of operating leverage, mergers and cross border acquisitions, and risk valuation; 2. a Cost Accounting view with Management Accounting systems, flexible budgeting, cost allocations, performance measurement and monitoring, reporting, calculation, manufacturing accounting, job order and process costing, activity based costing, and multi-level contribution margin Accounting. On the UVK website, numerous exam tasks and complete solutions thereto are available in English.

**Management Accounting and Asian Perspectives** Carsten Berkau, Keabetswe Sylvia Berkau, Mohd Ridzuan Darun, 2021-10-18 The book starts with a comparison of financial accounting and management accounting, both discussed based on the production firm PENOR Ltd. It further demonstrates accounting work in support of general management, CVP analysis, DOL, performance measurement, risk management, and M/A as well as cost accounting structures for absorption and marginal cost accounting systems, internal cost allocations, reporting, monitoring, manufacturing accounting, calculation, contribution margin accounting, and activity based costing. The content is explained by detailed case studies. This Asia edition also includes real case studies about companies in Malaysia. All chapters outline the learning objectives, provide an overview, include case studies, and how it is done, paragraphs. They end with a summary, the explanation of new technical terms, and a question bank with solutions for checking your learning progress. On the internet, you can find more than 300 exam tasks with solutions, as well as YouTube videos from the authors.

**Financial Statements** Carsten Berkau, 2025-10-13 The textbook covers the preparation, disclosure, and analysis of financial statements on a bachelor's and master's level. It contains more than sixty case studies and numerous links to an online materials bank. As the cases dominate the textbook space, readers get the impression to observe accountants at work. The case studies comprise detailed calculations, journal entries, T-accounts, and financial statements. For open book exams, the text includes how it is done, paragraphs which offer directions for accounting work. The textbook's structure follows the sequence of balance sheet items, beginning with non-current assets and ending at income tax liabilities. It further discusses a full set of financial statements. Readers can download numerous online materials like exam tasks with solutions thereto, links to YouTube clips produced by the author, and spreadsheets for support of their accounting work in

services are available As such patients often present with advanced disease at initial presentation and suffer poor health outcomes Given the multiple barriers to cervical cancer screening alternate methods utilizing the existing healthcare infrastructure need to be explored Clinical services in LMICs are often funded and provided in a vertical fashion with the appropriate integration of relevant infrastructure Because many health systems do not have a primary care model of service delivery there has been increased recognition of the need to leverage and incorporate non communicable disease NCDs care including cancer care within the existing routine services The benefit of such integration has been demonstrated for certain NCDs including hypertension and diabetes However despite the clinical burden such an integrated approach has not been fully evaluated for the early detection of cervical cancer and precancer care treatment In a systematic review and meta analysis of cervical cancer screening in SSA researchers found that among the 29 studies conducted between 2000 and 2019 cervical cancer screening was performed in just under 13% of over 35 000 women included Locally relevant research on strategies to optimize the early detection of cervical cancer and precancer treatment are clearly necessary For cervical cancer screening the WHO recommends a screen and treat approach using any of the available methods visual inspection with acetic acid VIA cytology and human papillomavirus HPV testing Precancer treatment options include cryotherapy thermal ablation and large loop excision of the transformation zone LLETZ The selection of screening and treatment modalities are largely driven by resource availability We welcome Case Reports Clinical Trials Community Case Studies General Commentary Methods Mini Reviews Opinions Original Research Perspective Review and Systematic Reviews that describe research integrating cervical cancer screening and precancer treatment programs within other health programs e g HIV care and treatment programs family planning services Please note that manuscripts consisting solely of bioinformatics computational analysis or predictions of public databases which are not accompanied by validation independent cohort or biological validation in vitro or in vivo will not be accepted in any of the sections of Frontiers in Oncology     **A London**
