**Global Perspectives on Reforming the Criminal Justice System** Pittaro, Michael, 2021-06-25 The often tenuous relationship between law enforcement and communities of color namely African Americans has grown increasingly strained and the call for justice has once again ignited the demand for criminal justice reform Rebuilding the trust between the police and the citizens that they have sworn to protect and serve requires that criminal justice practitioners and educators collaborate with elected officials and commit to an open ongoing dialogue on the most challenging issues that remain unresolved but demand collective attention and support Reform measures are not limited to policing policies and practices but rather extend throughout the criminal justice system There is no denying that the criminal justice system as we know it is flawed but not beyond repair Global Perspectives on Reforming the Criminal Justice System provides in depth and current research about the criminal justice system around the world its many inadequacies and why it urgently needs reformation Offering a fully fleshed outline of the current system this book details the newest research and is incredibly important to fully understand the flaws of the criminal justice system across the globe The goals of this book are to improve and advance the criminal justice system by addressing the glaring weaknesses within the system and discuss potential reforms including decreasing the prison population decarceration and improving police community relations Highlighting topics that include accountability community oriented policing ethics and mass incarceration this book is ideal for law enforcement officers trainers educators government officials policymakers correctional officers court officials professionals researchers academicians and students in the fields of criminal justice criminology sociology psychology addictions mental health social work public policy and public administration

*Gender and Political Violence* Candice D. Ortobals, Lori M. Poloni-Staudinger, 2018-03-09 This book examines the role of gender in political conflicts worldwide specifically the intersection between gender and terrorism Political violence has historically been viewed as a male domain with men considered the perpetrators of violence and power and women as victims without power Whereas men and masculinity are associated with war and aggression women and femininity conjure up socially constructed images of passivity and peace This

distinction of men as aggressors and women as passive victims denies women their voice and agency This book investigates how women cope with and influence violent politics and is both a descriptive and analytical attempt to describe in what ways women are present or absent in political contexts involving political violence and how they deal with gender assumptions express gender identities and frame their actions regarding political violence encountered in their lives The book looks to reach beyond the notion of women as victims of terrorism or genocide without agency and to recognize the gendered nature of political conflicts and how women respond to violence This book will be of interest to advanced undergraduate and graduate students in political science sociology cultural studies and gender studies academics in terrorism studies and gender studies government officials NGOs and professionals working in areas of violent conflict **Congressional Record** United States.
