Exploring the Ethical Implications of Generative AI Ara, Aftab, Ara, Affreen, 2024-04-04 Generative Artificial Intelligence AI an ever evolving technology holds immense promise across various industries from healthcare to content generation However its rapid

advancement has also given rise to profound ethical concerns Illicit black market industries exploit generative AI for counterfeit imagery and in educational settings biases and misinformation perpetuate These issues underscore the need to grapple with the risks accompanying generative AI integration Exploring the Ethical Implications of Generative AI emerges as a wellspring of insight for discerning academic scholars It sets the stage by acknowledging generative AI s multifaceted potential and its capacity to reshape industries The book addresses these complex ethical concerns offering a comprehensive analysis and providing a roadmap for responsible AI development and usage Its intended audience spans business leaders policymakers scholars and individuals passionate about the ethical dimensions of AI

**Surveillance Education** Nolan Higdon, Allison Butler, 2024-08-02 Surveillance Education explores the pervasive use of digital surveillance technologies in schools and assesses its pernicious effects on students Recognizing that the use of digital technologies will persist the authors instead offer practical ways to ameliorate their impact In our era of surveillance capitalism digital media technologies are ever more intertwined into the educational process Schools are presented with digital technologies as tools of convenience for gathering and grading student work as tools of support to foster a more equitable learning environment and as tools of safety for predicting or preventing violence or monitoring mental emotional and physical health Despite a dearth of evidence to confirm their effectiveness digital data collection and tracking is often presented as a way to improve educational outcomes and safety This book challenges these fallacious assumptions and argues that the use of digital media technologies has caused great harm to students by subjecting them to oppressive levels of surveillance impinging upon their right to privacy and harvesting their personal data on behalf of Big Tech In doing so the authors draw upon interviews from K 12 and higher education students teachers and staff civil rights and technology lawyers and educational technological programmers The authors also provide practical guidance for teachers administrators students and their families seeking to identify and combat surveillance in education This urgent eye opening book will be of interest to students and educators with interests in critical media literacy and pedagogy and the sociology of technology and education
