Artificial Intelligence and the Future of Work: Humans in Control Ekkehard Ernst, Janine Berg, Phoebe V. Moore, 2024-10-01 Artificial Intelligence AI is rapidly advancing in areas such as pattern detection classification and prediction which were long thought to be the exclusive realm of humans These developments are triggering excitement about the potential of AI but are also raising concerns about possible risks The versatility of AI and its speed of development have led to a wide range of applications both in personal and professional environments The most dramatic effects are however in the world of work AI is impacting job loss and employability and causing a transformation of tasks in a range of occupations and sectors It is also affecting other aspects of the labor market such as recruitment performance monitoring and dismissal As such the development and implementation of AI are raising concerns about the future of work both in terms of its mere existence and quality with critical implications for the social fabric as well as future development prospects The Artificial Intelligence Contagion David Barnhizer, Daniel Barnhizer, 2019-05-01 Artificial Intelligence Robotics Have we opened a Pandora s Box As AI robotics eliminates jobs across the spectrum governmental revenues will plummet while the debt increases dramatically This crisis of limited resources on all levels underfunded or non existent pensions health problems lack of savings and job destruction without comparable job creation will drive many into homelessness and produce a dramatic rise in violence as we fight over shrinking resources Ambitious deeply researched and far reaching in its scope and conclusions Contagion is actually several books in one Its summary of what AI is and will likely become is a standalone revelation It also offers a critique of socio economic ripple effects that verge on dystopian and essays and case studies of specific sectors or regions notably a chapter on China s fusion of AI and social control JEFF LONG New York Times Best selling Author A sobering look at the far reaching impact that artificial intelligence may have on the economy the workforce

democracy and all of humanity The Artificial Intelligence Contagion is a bellwether for anyone seeking to comprehend the global disruption coming our way DAVID COOPER President and Technologist Massive Designs We see in the rush to develop AI the arrogance of the human species Often buried by the exuberance over what AI might do is the massive dislocation it can cause David and Daniel Barnhizer masterfully lead us through the societal challenges AI poses and offer possible solutions that will enable us to survive the AI contagion KENNETH A GRADY Member Advisory Boards Elevate Services Inc MDR Lab and LARI Ltd This may be the scariest book ever *Overcome AI* Scott Gamm, 2020-09-29 YOUR GUIDE TO SURVIVING AND THRIVING IN THE AI ECONOMY No one can be completely sure what the future of work is going to look like but it will likely be completely transformed by artificial intelligence That means an uncertain future for Millennials including the need to switch jobs change occupations and learn new skills Taking steps towards financial freedom and early retirement now on your own terms will put you in the driver's seat for what could be a bumpy road ahead In OVERCOME AI Wall Street expert Scott Gamm sets out a practical roadmap to financial freedom and early retirement Discover Why retiring early will become a necessity not just a goal How much money you'll need to live well without a steady 9 5 job The importance of reducing or eliminating debt How to invest in the stock market How to use alternative retirement savings vehicles OVERCOME AI is full of actionable investing information that can be applied within minutes of reading This is truly the first book to provide a clear plan for wealth building and financial security in the automation era **Beyond Disruption** W. Chan Kim, Renée A. Mauborgne, 2023-05-02 USA TODAY BESTSELLER Blue Ocean Strategy the 1 global bestseller forever changed how the world thinks about strategy Now W Chan Kim and Ren e Mauborgne offer up a bold new idea that will transform how we all think about innovation and growth Disruption dominates innovation theory and practice But disruption for all its power is destructive displacing jobs companies and even entire industries Are we missing an alternative approach to innovation and growth With three decades of research the 1 global bestselling authors of Blue Ocean Strategy W Chan Kim and Ren e Mauborgne reveal another way to innovate and grow Just as Blue Ocean Strategy redefined the essence of strategy as creating not competing BEYOND DISRUPTION redefines and expands the existing view of innovation by introducing a new approach nondisruptive creation that is free from the destructive displacement that happens when innovators set out to disrupt Kim and Mauborgne reveal the distinct advantages of nondisruptive creation to business and society showing how this new approach to innovation allows companies to grow while also being a force for good With examples that reach across all sectors of the economy and a practical framework for guiding innovation efforts this book shows Why nondisruptive creation matters to all of us and why it is likely to become even more important in the future How it complements disruption and how you can identify and execute on nondisruptive opportunities How companies can more thoughtfully pursue their growth and innovation strategies in a way that better balances business and society A practical guide for driving innovation and growth the rich research behind the book coupled with its frame breaking message make it

the must read book for the next generation of innovators **Media Ethics** Chad Painter, Lee Wilkins, Erin E. Schauster, Philip Patterson, 2025-08-07 The eleventh edition of this authoritative book focuses on the most pressing media ethics issues including coverage of the 2024 elections and the emergence of AI Enabling students to make ethical decisions in an increasingly complex environment the book focuses on practical ethical theory for use across the media curriculum Twenty three new cases address events from the Israel Hamas war AI generated authors privacy for underage influencers Fox News election fraud claims social media whistleblowers threats to student run media outlets police posing as journalists the Bud Light transgender ad uproar the use of generative AI in advertising the publication of graphic war images focusing on the Ukraine Russia and Israel Hamas wars deep fakes in sexually explicit media the impact of Taylor Swift on the NFL video games requiring in game purchases to win and more Additional Features Each case has pedagogical questions that expand outward from the specifics of the case itself to ever larger issues suggested by the case Chapters in such areas as social justice media and democracy and loyalty discuss all types of media rather than segmenting the text by medium An introductory chapter in moral philosophy begins the text and a final chapter in moral development concludes it Text addresses the implications of digital content throughout multiple media industries and platforms Online material for students and instructors includes all cases from previous editions lecture slides essay questions and suggested classroom activities
