In addition to managing the best possible post-pandemic recovery, cities are at the beginning of the 4th industrial revolution and all want to play a relevant role in it. To achieve this, they must retain and attract the necessary talent. There is a fierce competition where cities transform to become as attractive as possible. But what makes a city attractive from emotional and rational sides to talented citizens? For mayors and city directors, how can I prepare my city for this goal? What kind of transformations in the medium long term should I develop? And in the short term, what processes and technologies SmartCity should I put in place?
