everything you need to stand out among the competition at every turn in your career **Online Personal Brand** Ryan M. Frischmann, 2014-07-19 Online personal branding is a requirement for all professionals The common argument of the experts is you have a digital footprint in social media and on the internet so people are already making impressions of you Take control of their perceptions More importantly you have an opportunity to proactively project your personal brand onto networks Two other advantages of personal branding are that it forces you to be visionary of your career goals and helps you land favorable employment This book shares a functional angle to personal branding that is refreshingly simpler than the traditional marketing angle The definition of an online personal brand is the combination of a skill set an aura and an identity and there is discussion where the concepts overlap *Pinterest Power: Market Your Business, Sell Your Product, and Build Your Brand on the World's Hottest Social Network* Jason Miles, Karen Lacey, 2012-10-09 Start Marketing NOW on the World's Fastest Growing Website You thought Facebook YouTube and Twitter were big Pinterest is outpacing them all As a marketer you can't afford to ignore this amazing new platform Why should you start marketing right now on Pinterest In a word MORE You'll drive more traffic get more customers and make more money than ever Pinterest Power provides all the tools tips and strategies you need to get going right now the right way Pinterest has unimaginable potential as a marketing and customer relationship building tool In this fantastic book Jason and Karen reveal their highly effective blueprint for using it the right way This is the guide to Pinterest that I'm having my staff read JIM COCKRUM bestselling author of Free Marketing 101 Low and No Cost Ways to Grow Your Business Pinterest is one of the hottest and fastest social tools on the Internet today It's growing faster than Facebook did and you don't want to be left behind Jason Miles will show you step by step how he uses Pinterest to make money online SKIP MCGRATH author of Three Weeks to eBay Profits **The Impact of Social Media on the PR Industry** Iliyana Stareva, 2013-10-08 Bachelor Thesis from the year 2012 in the subject Communications Public Relations Advertising Marketing Social Media grade 1.0 University of Plymouth language English abstract The Public Relations industry has faced dramatic changes in the past few years in terms of new technology and media channels as well as new opportunities for communicating with clients and businesses The main reason for this is the emergence of social media networking which enabled customers to easily and quickly engage in a two way communication process with companies For businesses on the other hand this represents a huge challenge of how to effectively handle the new forms of engagement so that they now realize the increasing importance of Public Relations as an organisational function However social media is still a big challenge for the PR industry itself That is why the project aimed to research this new development and find comprehensive insights into what exactly happened and how should PR practitioners better approach new media opportunities The age of we talk you listen style of company communication is gone the dialogue with stakeholders is the only way forward because the emergence of social media has changed the way consumers form opinions and make decisions Flint 2009 Therefore many PR specialists including Brown Solis Scott and others believe that we are now at the peak of a

magnificent era for the PR practice It also means that there are new tools and new techniques needed to meet client s needs and requirements Butterick 2011 also mentions that the rise of digital media has transformed our channels of communication and the journalism practice closely linked to PR which in turn has had and will continue having an enormous impact on public relations As social media changes constantly there is a continuous need to frequently investigate how social media is altering the PR practice which is the main justification and objective for this research A first step in this study was examining a vast amount of recent literature sources This critical review played the role of a basis to develop the following primary research and determine its focus according to the identified gaps in the literature The report presents a number of existing evidence illustrating how greatly social media has changed and continues to change the PR industry Another purpose of the research was to examine the reasons for this phenomenon To do so the research also aimed to investigate how practitioners themselves use social media and how it has been integrated into the Marketing Mix As Brown summarizes Now we are seeing altogether new ways
