**The Slightly Awesome Teacher** Dominic Salles, 2016-08-15 Most books on teaching ask teachers to be inspirational to operate at 100 miles an hour with creativity oozing out of every pore Dominic Salles says that's unsustainable But you can get brilliant results using some simple practices taken from the myriad of educational research on classroom practices It isn't a guide to all the extra stuff you should do to become cool and awesome It is a book that will get you to forget about teaching and think about learning another way of saying it will help you to stop stressing about what you do and get the students to work harder and smarter at what they do Dominic Salles believes that every teacher can be slightly awesome And here he shows you how

**Teaching and Learning at a Distance** Michael Simonson, Susan M. Zvacek, Sharon Smaldino, 2019-07-01 Teaching and Learning at a Distance is written for introductory distance education courses for preservice or in-service teachers and for training programs that discuss teaching distant learners or managing distance education systems This text provides readers with the basic information needed to be knowledgeable distance educators and leaders of distance education programs The teacher or trainer who uses this book will be able to distinguish between appropriate uses of distance education In this text we take the following themes The first theme is the definition of distance education Before we started writing the first edition of Teaching and Learning at a Distance we carefully reviewed the literature to determine the definition that would be at the foundation of our writing This definition is based on the work of Desmond Keegan but is unique to this book This definition of distance education has been adopted by the Association for Educational Communications and Technology and by the Encyclopedia Britannica The second theme of the book was the importance of research to the development of the contents of the book The best practices presented in Teaching and Learning at a Distance are validated by scientific evidence Certainly there are rules of thumb but we have always attempted to only include recommendations that can be supported by research The third theme of Teaching and Learning at a Distance is derived from Richard Clark's famous quote published in the Review of Educational Research that states that media are mere vehicles that do not directly influence achievement Clark's controversial work is discussed in the book but is also fundamental to the book's advocacy for distance education in other words we authors did not make the claim that education delivered at a distance was inherently better than other ways people learn Distance delivered instruction is not a magical approach that makes learners achieve more The fourth theme of the book is equivalency theory Here we presented the concept that instruction should be provided to learners that is equivalent rather than identical to what might be delivered in a traditional environment Equivalency theory helps the instructional designer approach the development of instruction for each learner without attempting to duplicate what happens in a face-to-face classroom The final theme for Teaching and Learning at a Distance is the idea that the book should be comprehensive that it should cover as much of the various ways instruction is made available to distant learners as is possible It should be a single source of information about the field

*Get Paid For Your Perspective: Monetize Insight Without Teaching* Onyeka Godfrey, 2025-08-04 You don't have to teach to create income from what you know. This book is your invitation to monetize your insights, frameworks, and lived expertise without creating courses, becoming a coach, or turning into a content machine. You'll explore models like productized thinking, expert licensing, decision support tools, and strategic frameworks that let you sell how you think. If you've ever felt that your ideas are valuable but hard to package, this book unlocks the business models and delivery methods that make your mind your most marketable asset. Get paid not for what you do but for how you see the world. **Handbook of Research on**

**Gaming Trends in P-12 Education** Russell, Donna, Laffey, James M., 2015-10-21 Gaming applications are rapidly expanding into the realm of education. Game-based education creates an active and enjoyable learning environment especially for children and young adults who regularly use gaming for recreational purposes. Due to the evolving nature of education, gaming provides a transformative learning experience for diverse students. The Handbook of Research on Gaming Trends in P-12 Education provides current research intended to aid educators, school administrators, and game developers in teaching today's youth in a technology-immersive society. This publication melds together gaming for entertainment purposes as well as gaming applied within educational settings with an emphasis on P-12 classrooms. Featuring exhaustive coverage on topics relating to virtual reality, game design, immersive learning, distance learning through 3D environments, as well as best practices for gaming implementation in real-world settings, this handbook of research is an essential addition to the reference collection of international academic libraries. **Routledge Handbook of Media Geographies** Paul C. Adams, Barney Warf, 2021-10-27

This Handbook offers a comprehensive overview of media geography, focusing on a range of different media viewed through the lenses of human geography and media theory. It addresses the spatial practices and processes associated with both old and new media, considering media not just as technologies and infrastructures but also as networks, systems, and assemblages of things that come together to enable communication in the real world. With contributions from academics specializing in geography and media studies, the Routledge Handbook of Media Geographies summarizes the recent developments in the field and explores key questions and challenges affecting various groups, such as women, minorities, and persons with visual impairment. It considers geographical aspects of disruptive media uses, such as hacking, fake news, and racism. Written in an approachable style, chapters consider geographies of users, norms, rules, laws, values, attitudes, routines, customs, markets, and power relations. They shed light on how mobile media make users vulnerable to tracking and surveillance but also facilitate innovative forms of mobility, space perception, and placemaking. Structured in four distinct sections centered around control and access to digital media, mass media, mobile media, and surveillance, and media and the politics of knowledge, the Handbook explores digital divides and other manifestations of the uneven geographies of power. It also includes an overview of the alternative social media universe created by the Chinese government. Media geography is a burgeoning field of study that lies at the intersections of various social sciences, including human geography, political science,

sociology anthropology communication media studies urban studies and women and gender studies Academics and students across these fields will greatly benefit from this Handbook **The Routledge Handbook of English Language**

**Education in the Philippines** Julius C. Martinez, Isabel Pefianco Martin, 2025-09-30 This handbook serves as a comprehensive resource on English language education in the Philippines addressing a wide range of issues including ideologies multilingualism identities policies methodologies assessment teacher education and curriculum Chapters cover a range of educational contexts from Luzon to Mindanao islands from basic to higher education and from formal to non formal schooling This book upholds the think and do otherwise perspective by problematizing contemporary paradigms and practices that operate from naturalized ideas inherited from the American colonizers This includes repairing pedagogies that redress injustices experienced by historically marginalized groups and hoping for possibilities and approaches to teaching and learning English that are just equitable and inclusive The six sections in the Handbook bring up conditions for thinking and doing otherwise pointing to ways in which genuine changes can start to happen Scholars from diverse backgrounds come together in this handbook to take collective ownership of English language education in the Philippines This ownership does not mean ignoring and disposing of the country's colonial past but reclaiming English language education as an ongoing project instead This handbook likewise demonstrates that such a project makes it possible for wider audiences to see that Global South scholars from and in the Philippines also have much to teach the rest of the world about thinking and doing otherwise and by extension problematizing repairing and hoping Given its scope and breadth the handbook is an invaluable reference for students pre service and in service teachers teacher educators researchers and policymakers interested in English language language education TESOL sociolinguistics and applied linguistics *Face2face Elementary Teacher's*
