Ultimate Ai Automation Tools For Beginners For Millennials

Robert N. Lussier, John R. Hendon

Ultimate Ai Automation Tools For Beginners For Millennials:

AI, Automation, and War Anthony King, 2025-08-19 Why AI will not replace human strategic judgement in war Is AI about to automate war Will autonomous drone swarms and killer robots controlled by AI dominate the battlespace and determine the winner In *AI Automation and War* Anthony King debunks this science fiction tinged narrative of AI s military potential exploring instead the actual applications of AI by the armed forces over the last decade He finds that AI is not going to replace human commanders and combatants the machines are not about to take over Rather the military has used and will continue to use AI to process data at a scale and speed that exceeds the capacity of humans AI will be used primarily to improve military understanding and intelligence King explains that military commanders enabled by the data processing power of AI will be able to see the battlespace at a previously unattainable depth fidelity and speed AI will help the armed forces plan target and conduct cyber operations faster and more effectively In order to harness AI in this way however a radical organisational transformation is taking place The armed forces are integrating civilian technologists into operational headquarters to work alongside military staff This partnership between the armed forces and the technology sector signals the emergence of a military tech complex that promises to be as powerful in this century as the military industrial complex was in the last
