In this book 17 cases representing state of the art design and practice from nine different countries are presented grouped around the themes of I Innovative Instrumentation II Innovations in Learner Collaboration and III Innovations in Practice. While all of the cases deal with innovative instrumentation, software or combinations of software and communication technologies, the six cases in section I offer a detailed look at software packages designed for some aspect of the innovation of adult learning such as reducing information overload by intelligent tools or using a World Wide Web environment for communication and learning. In section II a variety of ways to innovate adult learning through collaborative activities are described including learning scenarios that make effective use of collaboration and the technology and instrumentation that make collaboration at a distance possible. Section III describes innovative learning situations that have been successfully integrated into broad scale field settings, each focusing on a particular situation in which innovative technologies play a part E-learning and Teaching in Library and Information Services Barbara Allan, 2002 This overview of virtual learning environments provides guidance to the development, use and delivery of online learning and teaching materials and programmes.
