Acupuncture Energetics is an area of growing interest and importance in acupuncture. Acupuncture treatment aims to correct the imbalance of energy or qi. Energetics is a method of diagnosing which aspects of qi are out of balance. Energetics in Acupuncture provides a straightforward diagnostic method of identifying which aspects of the qi are out of balance and therefore what acupuncture treatment is required. One symptom can be caused by many different imbalances of organs and it is essential for the therapist to correctly diagnose the problem before commencing treatment. Once the correct diagnosis is made, the relevant points can be treated with appropriate techniques. The book takes a logical approach to diagnosis and provides relevant lines of questioning and reasoning.
