## **Cries In The Desert St Martins True Crime Library:**

**Cries in the Desert** John Glatt, 2007-04-01 In the fall of 1999 a twenty two year old woman was discovered naked and bleeding on the streets of a small New Mexico town south of Albuquerque She was chained to a padlocked metal collar The tale she told authorities of being beaten raped and tortured with electric shock was unthinkable Until she led them to 59 year old David Ray Parker his 39 year old fiancée Cindy Hendy and the lakeside trailer they called their toy box What the FBI uncovered was unprecedented in the annals of serial crime restraining devices elaborate implements of torture books on human anatomy medical equipment scalpels and a gynecologist's examination table But these horrors were only part of the shocking story that would unfold in a stunning trial Cries in the Desert is the true story of The Toy Box Killer a shocking story of torture and murder in the New Mexico desert

**The Most Evil of Them All** Sam Human, 2023-06-01 Most serial murderers undeniably spring from abusive or neglected childhoods and or are potentially predisposed to various genetic sociopathic or schizophrenic afflictions rendering the root cause of their murderous behaviour a complex lethal combination of factors What is less credited however is the role of pathological narcissism and narcissistic personality disorder NPD in the making of a serial killer Narcissistic rage sexual narcissism necrophilia and cannibalism are all driven by a need to control and satisfy a grandiose sense of entitlement for personal pleasure and of those narcissistic rage is possibly the most dangerous factor of all in the understanding of serial rape and murder In this riveting book the author explores the role of NPD through the lived experiences of various serial murderers and showcases the profiles of both infamous and lesser known serial offenders from South Africa and around the world From the blatant callous criminality of the likes of Jason Rohde Dr Wouter Basson and Henri van Breda to the unspeakable cruelty of serial rapists and murderers like Ted Bundy Jeffrey Dahmer Kobus Geldenhuys the Norwood killer and Don Steenkamp the Griekwastad murderer this book reveals the role pathological narcissism might have played in some of the most notorious and gruesome criminal cases of our times Just one warning Don't read this book at night

**The Anatomy of Evil** Michael H. Stone, The crimes of Charles Manson Ted Bundy Jeffrey Dahmer John Wayne Gacy Dennis Rader and other high profile killers are so breathtakingly awful that most people would not hesitate to label them evil In this groundbreaking book renowned psychiatrist Michael H Stone host of Discovery Channel's former series Most Evil uses this common emotional reaction to horrifying acts as his starting point to explore the concept and reality of evil from a new perspective In an in depth discussion of the personality traits and behavior that constitute evil across a wide spectrum Dr Stone takes a clarifying scientific approach to a topic that for centuries has been inadequately explained by religious doctrines Basing his analysis on the detailed biographies of more than 600 violent criminals Stone has created a 22 level hierarchy of evil behavior which loosely reflects the structure of Dante's Inferno He traces two salient personality traits that run the gamut from those who commit crimes of passion to perpetrators of the worst crimes sadistic torture and murder One trait is narcissism as exhibited in people who are so self centered that they have little

or no ability to care about their victims The other is aggression the use of power over another person to inflict humiliation suffering and death Stone then turns to the various factors that singly or intertwined contribute to pushing certain people over the edge into committing heinous crimes They include heredity adverse environments violence prone cultures mental illness or brain injury and abuse of mind altering drugs All are considered in the search for the root causes of evil behavior What do psychology psychiatry and neuroscience tell us about the minds of those whose actions could be described as evil And what will that mean for the rest of us Stone discusses how an increased understanding of the causes of evil will affect the justice system He predicts a day when certain persons can safely be declared salvageable and restored to society and when early signs of violence in children may be corrected before potentially dangerous patterns become entrenched Michael H Stone MD New York NY is professor of clinical psychiatry at the Columbia College of Physicians and Surgeons He is the author of ten books most recently Personality Disorders Treatable and Untreatable and over two hundred professional articles and book chapters He is also the host of Discovery Channel s former series Most Evil and has been featured in the New York Times Psychology Today the Christian Science Monitor CNN ABC News CBS News NBC News the New York Post the London Times the BBAC and Newsday among many other media outlets
