Critical Visions In Film Theory:

CRITICAL VISIONS IN FILM THEORY CLASSIC AND CONTEMPORARY READINGS. , Critical Visions in Film Theory

Timothy Corrigan, Patricia White, Meta Mazaj, 2010-12-06 Critical Visions in Film Theory is a new book for a new generation embracing groundbreaking approaches in the field without ignoring the history of classical film theory The study of film theory has changed dramatically over the past 30 years with innovative ways of looking at classic debates in areas like film form genre and authorship as well as exciting new conversations on such topics as race gender and sexuality and new media Until now no film theory anthology has stepped forward to represent this broader more inclusive perspective Critical Visions also provides the best guidance for students giving them the context and the tools they need to critically engage with theory and apply it to their film experiences

Film Theory: The Basics Kevin McDonald, 2022-05-11 Fully updated and expanded throughout this second edition of Film Theory The Basics provides an accessible introduction to the key theorists concepts and debates that have shaped the study of moving images The book examines film theory from its emergence in the early twentieth century to its study in the present day and explores why film has drawn special attention as a medium as a form of representation and as a focal point in the rise of modern visual culture It also emphasizes how film theory has developed as a historically contingent discourse one that has evolved and changed in conjunction with different social political and intellectual factors This second edition offers a detailed account of new theoretical directions at the forefront of film studies in the twenty first century and draws additional attention to how theory engages with today s most pressing questions about digital technologies the environment and racial justice Complete with questions for discussion and a glossary of both key terms and key theorists this book is an invaluable resource for those new to film theory and for anyone else interested in the history and significance of critical thinking in relation to the moving image

Genre Trouble and Extreme Cinema Troy Bordun, 2017-11-10 This volume re evaluates theories of genre and spectatorship in light of a critic defined tendency in recent art cinema coined extreme cinema In Genre Trouble and Extreme Cinema Bordun argues that the films of Mexican director Carlos Reygadas and French director Catherine Breillat expand generic classifications Bordun contends that their films make it apparent that genre is not established prior to the viewing of a work but is recollected and assembled by spectators in ways that matter for them in both personal and experiential terms The author deploys contemporary film theories on the senses both phenomenological and affect theory and partakes in close readings of the films forms and narratives The book thus adds to the present literature on extreme cinema and film theory yet sets itself apart by fully deploying genre theory alongside the methodological and stylistic approaches of Stanley Cavell Vivian Sobchack Laura U Marks and Eugenie Brinkema

A Companion to Critical and Cultural Theory Imre Szeman, Sarah Blacker, Justin Sully, 2017-07-07 This Companion addresses the contemporary transformation of critical and cultural theory with special emphasis on the way debates in the field have changed in recent decades Features original essays from an international team

of cultural theorists which offer fresh and compelling perspectives and sketch out exciting new areas of theoretical inquiry Thoughtfully organized into two sections lineages and problematics that facilitate its use both by students new to the field and advanced scholars and researchers Explains key schools and movements clearly and succinctly situating them in relation to broader developments in culture society and politics Tackles issues that have shaped and energized the field since the Second World War with discussion of familiar and under theorized topics related to living and laboring being and knowing and agency and belonging

Theory Aside Jason Potts, Daniel Stout, 2014-05-14 Where can theory go now Where other voices concern themselves with theory's life or death the contributors to Theory Aside take up another possibility that our theoretical prospects are better served worrying less about what's next and more about what else Instead of looking for the next big thing the fourteen prominent thinkers in this volume take up lines of thought lost or overlooked during theory's canonization They demonstrate that intellectual progress need not depend on the discovery of a new theorist or theory Moving subtly through a diverse range of thinkers and topics aesthetics affect animation and film studies bibliography cognitive science globalization phenomenology poetics political and postcolonial theory race and identity queer theory and sociological reading practices the contributors show that a more sustained less apocalyptic attention to ideas might lead to a richer discussion of our intellectual landscapes and the place of the humanities and social sciences in it In their turn away from the radically new these essays reveal that what's fallen aside still surprises Contributors Ian Balfour Karen Beckman Pheng Cheah Frances Ferguson William Flesch Anne Lise Fran ois Mark B N Hansen Simon Jarvis Heather Love Natalie Melas Jason Potts Elizabeth A Povinelli Eve Kosofsky Sedgwick Jordan Alexander Stein Daniel Stout Irene Tucker

The Geschlecht Complex Oscar Jansson, David LaRocca, 2022-01-13 The polysemous German word Geschlecht denoting gender genre kind kinship species race and somehow also more exemplifies the most pertinent questions of the translational transdisciplinary transhistorical and transnational structures of the contemporary humanities What happens when texts objects practices and concepts are transferred or displaced from one language tradition temporality or form to another What is readily transposed what resists relocation and what precipitate emerges as distorted or new Drawing on Barbara Cassin's transformative remarks on untranslatability and the activity of philosophizing in languages scholars contributing to The Geschlecht Complex examine these and other durable queries concerning the ontological powers of naming and do so in the light of recent artistic practices theoretical innovations and philosophical incitements Combining detailed case studies of concrete category problems in literature philosophy media cinema politics painting theatre and the performing arts with a range of indispensable excerpts from canonical texts by notable field defining thinkers such as Apter Cassin Cavell Derrida Irigaray Malabou and Nancy among others the volume presents the Geschlecht complex as a condition to become aware of and in turn to companionably underwrite any interpretive endeavor Historically grounded yet attuned to the particularities of the present the Geschlecht complex becomes an invaluable mode for thinking and theorizing while ensconced in the urgent

immediacy of pressing concerns and poised for the inevitable complexities of categorial naming and genre discernment that await in the so often inscrutable translation resistant twenty first century

Love, Sex, Gender, and Superheroes Jeffrey A. Brown, 2021-11-19 Impossibly muscular men and voluptuous women parade around in revealing skintight outfits and their romantic and sexual entanglements are a key part of the ongoing drama Such is the state of superhero comics and movies a genre that has become one of our leading mythologies conveying influential messages about gender sexuality and relationships Love Sex Gender and Superheroes examines a full range of superhero media from comics to films to television to merchandising With a keen eye for the genre s complex and internally contradictory mythology comics scholar Jeffrey A Brown considers its mixed messages Superhero comics may reinforce sex roles with their litany of phallic musclemen and slinky femme fatales but they also blur gender binaries with their emphasis on transformation and body swaps Similarly while most heroes have heterosexual love interests the genre prioritizes homosocial bonding and it both celebrates and condemns gendered and sexualized violence With examples spanning from the Golden Ages of DC and Marvel comics up to recent works like the TV series The Boys this study provides a comprehensive look at how superhero media shapes our perceptions of love sex and gender

The Essay Film Timothy Corrigan, 2011-12-01 Why have certain kinds of documentary and non narrative films emerged as the most interesting exciting and provocative movies made in the last twenty years Ranging from the films of Ross McElwee Bright Leaves and Agn s Varda The Gleaners and I to those of Abbas Kiarostami Close Up and Ari Folman Waltz with Bashir such films have intrigued viewers who at the same time have struggled to categorize them Sometimes described as personal documentaries or diary films these eclectic works are rather best understood as cinematic variations on the essay So argues Tim Corrigan in this stimulating and necessary new book Since Michel de Montaigne essays have been seen as a lively literary category and yet despite the work of pioneers like Chris Marker seldom discussed as a cinematic tradition The Essay Film offering a thoughtful account of the long rapport between literature and film as well as novel interpretations and theoretical models provides the ideas that will change this

Rebecca Patricia White, 2021-05-06 The 1940 film adaptation of Daphne du Maurier s gothic romance Rebecca begins by echoing the novel s famous opening line Last night I dreamt I went to Manderley again Patricia White takes the theme of return as her starting point for an exploration of the film s enduring power Drawing on archival research she shows how the production and reception history of Rebecca the first fruit of the collaboration between Hollywood movie producer David O Selznick and British director Alfred Hitchcock is marked by the traces of women s contributions White provides a rich analysis of the film addressing the gap between perception and reality that is constantly in play in the gothic romance and highlighting the queer erotics circulating around I the heroine Mrs Danvers and the dead but ever present Rebecca Her discussion of the film s afterlives emphasizes the lasting aesthetic impact of this dark masterpiece of memory and desire while her attention to its remakes and sequels speaks to the ongoing relevance of its vision of gender and power
