**Configurations of Rape in the Hebrew Bible** Frank M. Yamada, 2008 In *Configurations of Rape in the Hebrew Bible* Frank M Yamada explores the compelling similarity among three rape narratives found in the Hebrew Scriptures These three stories the rape of Dinah Genesis 34 the rape of an unnamed concubine Judges 19 and the rape of Tamar daughter of David 2 Samuel 13 move through the same plot progression an initial sexual violation of a woman leads to escalating violence among men resulting in some form of social fragmentation In this intriguing study Yamada draws from the disciplines of literary and narrative criticism feminist biblical interpretation and cultural anthropology to argue for a family resemblance among these three stories about rape Book Jacket [Michal's Moral Dilemma](#) Jonathan Y. Rowe, 2011-06-21 *Michal's Moral Dilemma* proposes that attention should be paid to the moral goods that feature in the text before arguing that the family a central feature of Old Testament morality should be understood as a set of practices rather than an institution Jonathan Rowe discusses the use of models of social action to comprehend the social world of the Bible and suggests a modified version of Bakhtin's theory of heteroglossic voices can help readers appreciate how authors present a moral vision by approving some characters actions whilst undermining others The discussion of Michal's moral dilemma adduces anthropological theories and ethnographic data concerning violence lying and the relationship between fathers and daughters Given that the conflicts of moral goods are resolved by characters choosing to act in a certain way Rowe enquires after the author's assessment of each character's moral choices arguing that Michal's loyalty to David and deception of Saul was counter cultural By approving of her choice the author affirms the importance of loyalty to the Davidic dynasty *Syrian Armenians and the Turkish Factor* Marcello Mollica, Arsen Hakobyan, 2021-10-27 This volume examines significant social transformations engendered by the ongoing Syrian conflict in the lives of Syrian Armenians The authors draw on documentary material and fieldwork carried out in 2013 2019 among Syrian Armenians in Armenian and Lebanese urban settings The stories of Syrian Armenians reveal how contemporary events are seen to have direct links to the past and to reproduce memories associated with the Armenian genocide the contemporary involvement of Turkey in the Syrian war for example is seen on the ground as an attempt to control the Armenian presence in Syria Today the Syrian Armenian identity encapsulates the complex intersection of memory transnational links to the past collective identity and lived experience of wartime everydayness Specifically the analysis addresses the role of memory in key events such as the bombing of Armenian historical sites during the commemorations of 24 April in the Eastern Syrian city of Deir ez Zor the perceived shift from destroying Syrian Armenians material culture to attempting to destroy the Armenian community in urban Aleppo and the informal transactions that take place in the border area of Kessab This carefully researched ethnography will appeal to scholars of anthropology sociology and political science who specialize in studies of conflict memory and diaspora **El-Hi Textbooks & Serials in Print, 2005** ,2005 **Anthropology News** ,2009 **Migration Theory** Caroline B. Brettell, James F. Hollifield, 2022-07-01

The revised fourth edition of *Migration Theory* continues to offer a one stop synthesis of contemporary thought on migration. Editors Caroline B. Brettell and James F. Hollifield remain committed to include coverage that is comparative and global in scope while enhancing similarities and differences between one academic field and the next. All chapters have been revised to highlight cutting edge issues in the field of migration studies today. The fourth edition welcomes two new authors, Professors Marie Price and François H. Ran, to offer a fresh approach with their chapters on geography and demography respectively. Designed for undergraduate and graduate courses in migration studies, a primary goal of the text is to assist instructors in guiding students who may have little background on migration to understand important issues and the scientific debates. This ensures *Migration Theory* is a highly valuable guide not only to the perspectives of one's own discipline but also to those of cognate fields.
