Francis Abraham, 2006-11-30 This volume is a comprehensive general sociology text with detailed chapters on theoretical perspectives and research methods as also elaborating key concepts and theories It also deals with a number of contemporary social issues which are relevant to both Indian society and the international community

International Journal of Contemporary Sociology, 2005 **Contemporary Sociological Theory** Craig Calhoun, Joseph Gerteis, James Moody, Steven Pfaff, Indermohan Virk, 2022-04-25 The new edition of the definitive undergraduate guide to contemporary sociological theory with updated reading selections throughout The fourth edition of Contemporary Sociological Theory offers a thorough introduction to current perspectives and approaches in sociology and social science Covering a broad range of essential topics this comprehensive volume provides students with the foundation necessary for understanding the theoretical underpinnings of present day debates in the diverse field In depth yet accessible readings address micro sociological analysis symbolic interactionism network theory phenomenology critical theory structuralism feminist theory and more This classic text is fully revised to incorporate the most representative and up to date material including new readings addressing debates on gender power and inequality New editorial introductions clarify and contextualize the selected readings while up to date examples highlight connections to today s theoretical discussions This authoritative survey of contemporary sociological theory Presents substantial primary source texts with detailed introductions rather than brief excerpts and basic overviews Examines the sociological theories of Foucault Giddens Bourdieu and Habermas Discusses debates over modernity and postmodernity crisis and change and race and difference Provides historical and intellectual perspective to each selected reading in the book Includes extensive references to further readings and resources Contemporary Sociological Theory Fourth Edition provides the depth of coverage students require for undergraduate courses in social and sociological theory as well as courses in wider social science programs such as human geography anthropology criminology and urban studies In combination with its complement Classical Sociological Theory Fourth Edition Contemporary Sociological Theory remains the most complete overview of sociological theory available **Class and Politics in Contemporary Social Science** Dick Houtman, Dick Houtman argues that neither authoritarianism nor libertarianism can be explained by class or economic background but rather by position in the cultural domain what he calls cultural capital Although he examines all of the statistics and arguments of the conventional approaches with care and concern Houtman convincingly demonstrates that the conclusions drawn from earlier studies are untenable at a more general theoretical level Despite differences among advocates of class explanations their theories are based on largely identical research findings in particular a strong negative relationship between education and authoritarianism Unobstructed by the conclusions these authors felt called upon to draw from the findings themselves Houtman configures them in a new way The hypotheses derived from this new theory allow for a systematic strict and

competitive testing of original theses without ignoring the value of and earlier research After demonstrating that authoritarianism and libertarianism cannot be explained by class or economic background Houtman examines the implications of this argument for today's death of class debate in political sociology He holds it to be unfortunate that the relevance of class to politics is typically addressed by studying the relation between class and voting This conceals a complex cross pressure mechanism that causes this relationship to capture the net balance of class voting and its opposite cultural voting instead of class voting He argues that references to a decline in class voting may be basically correct but dogmatic reliance on the relation between class and voting to prove the point systematically underestimates levels of class voting and produces an exaggerated picture of the decline Dick Houtman has an eye for the critical gap in our grand theorizing and like the classic Dutchman has filled the gap This book we must all read to find how better to fill the gaps in our own theorizing about culture class and politics Terry Nichols Clark University of Chicago Dick Houtman is professor of sociology at the Erasmus University Rotterdam the Netherlands Contemporary Sociological Thinkers and Theories Mr Sandro Segre, 2014-11-28 In this volume Sandro Segre provides a comprehensive overview of the major theoretical perspectives in contemporary sociology The perspectives are divided into four sections Interpretative Sociology Structuralist Sociology Micro and Macrosociological Perspectives and Historical and Philosophical Perspectives An introduction to each section provides a detailed overview of the key concepts and figures who contributed to the perspectives An analysis of their reception in the secondary literature and a balanced evaluation of each perspective derived from extant critical literature are also provided *Contemporary Sociological Theories* Pitirim Aleksandrovich Sorokin, 1928 *Catalogs of Courses* University of California, Berkeley, 1981 Includes general and summer catalogs issued between 1878 1879 and 1995 1997

Modern Sociological Theory M. Francis Abraham, 1982 This book is a comprehensive overview of several major schools of sociological theory Looking at various approaches from different cultural contexts Abraham first explains conflicting views about the meaning of sociological theory itself then analyzes the basic sociological concepts of system structure function and conflict and the methodology of sociological theory Designed to familiarize students with contemporary schools of theory including the most recent trends the book clearly defines structural functionalism conflict theory symbolic interactionism and phenomenological sociology **The Centrality of Religion in Social Life** Eileen Barker, 2021-11-18 James A Beckford's work is internationally acclaimed not only in the sociology of religion but also in other fields of the social sciences Beckford has long been arguing that the barriers that have grown up between the different sub disciplines should be broken down with those specialising in religion becoming more cognisant of new theoretical developments and sociologists in general becoming more aware of the significance of developments in the religious scene This book is a collection of essays written in Beckford's honour drawing on a number of religious themes that have been central to Beckford's interests whilst also offering a significant contribution to our understanding of the wider society A central theme is modernity and its relation to the post

modern and how religion affects and is affected by the dynamics of contemporary society with the primary focus of many of the chapters being a concern with how society copes with the minority religions that have become visible with the globalising tendencies of contemporary society The contributors who come from America Asia and various parts of Europe are all internationally renowned scholars Beckford s most important publications are listed in an Appendix and the volume opens with a short account of his contribution to sociology by Eileen Barker the editor and James T Richardson
