Strategic Management, Google eBook Robert M. Grant,Bella Butler,Humphrey Hung,Stuart Orr,2012-02-02

Contemporary Strategic Management 1st edition is an Australasian adaptation of Robert Grant s successful text With an emphasis on competitive advantage this text provides students with an up to date and comprehensive coverage of core topics and concepts including the impact of the global financial crisis With examples from Australia New Zealand and the Asia Pacific region the text has been written in a lively and engaging manner to promote student learning and understanding Consideration is given to all types of organisations including public sector organisations and steers away from an excessive focus on large organisations The text also incorporates up to date detailed cases on Australasian organisations such as Cascade Brewery Company Malaysian Airlines and Bunnings Warehouse **The Business Plan** Gerald Schwetje,Sam

Vaseghi,2007-08-24 In starting a new enterprise one must be able to both plan and realize their initial goal This book provides the budding entrepreneur with the essentials needed to draw up and execute a successful business plan The implementation of the many methods presented in this title have been exercised for years both in practice and in real world management consulting situations By laying out a straightforward blueprint for the reader this title s pragmatic emphasis and autodidactic approach allows for easy absorption of the necessary skills and tools required for the planning and development of a new business venture Each section of the book closes with a set of key questions thusly providing a roadmap for building a successful business from the planning stage to successful marketing to finding investors It is with this book s method that the reader is able to weigh the real risks associated with business formation Basic Strategy in

Context Neil Thomson,Charles Baden-Fuller,2010-06-01 Basic Strategy in Context centres on real world firms and managers by giving each chapter s cases a higher weighting in importance and explanation than is normal Given this emphasis on real world as opposed to theoretical treatment the book enables the solving of practical business problems like those below This emphasis on reality is cemented by the book s treatment of diversity as being the norm highlighted through European business cases from different countries Giving example answers and links from case to theory rams home further the expected usefulness of the book to students about to enter industry Often theory and cases are treated as different and separated topics we believe that our integrated didactic treatment is quite unique Finally we use the basic theories of strategy and then show how these mainly simple concepts can be extended to solve tricky business problems anywhere in any

industry Here is a sample of specific practical problems to which this book can show solutions Why are resources important and how are they leveraged Using the case of a British failure Railtrack we show the fatal consequences of neglecting existing resources and then in a completely different country and industry Carlo Gavazzi Space in Italy how resources can be utilised from outside the firm to achieve leverage Given our emphasis on diversity we highlight successful change in a foreign and inflexible environment Japan and Carlos Ghosn But can change be planned Sometimes events or luck sabotage the best intentions as shown in the Samsung case The book differentiates itself from the competition in four ways Cases form the highlight of the book Taking European and some international cases as the starting point the objective is to link themes or topics to a description of their effect on the firm The linkage will occur at the relevant point in the case not in a separate section or in another book The author team has used several longitudinal cases spread over a 15 20 year period The longitudinal cases are supported by some new non longitudinal cases selected from award winning cases associated with the LRP Journal and the Gate2Growth Academic Network We feel such an emphasis on cases is a novel feature The theory is explained using a range of modern didactic methods not usually found in competitive offerings Examples include colour coded and highlighted links from the theory to the case questions inside each theory section with model answers and unanswered questions to test the student s grasp of the concepts The book features a mixture of cases from short specific to academically challenging ones Too often superficial cases are placed at the end of chapters in strategy theory books They are picked to emphasize the topics of the preceding chapters The result is spoon feeding with little need or motivation to provoke individual thought or learning The cases in this book are comprehensive approximately 20 pages in length with ample quantitative and qualitative data thus forcing a modicum of effort from the student Shorter cases are also included for ease of understanding and instructor flexibility Another differentiating feature is the emphasis on diversity hence the use of European as opposed to US based cases

Innovative Strategy Making in Higher Education Mario Martinez, Mimi Wolverton, 2009-03-01 The purpose of this book is to offer higher education leaders scholars consultants and observers a full range of strategy tools that can be applied to the higher education industry This is accomplished by a introducing new concepts and tools to give a comprehensive view of strategy making in higher education beyond strategic planning b demonstrating the value of the concepts and tools through description and application for different types of institutions universities community colleges for profit colleges etc and at different levels within institutions institutional college department etc and c providing guidance on the appropriate uses of the various tools The last point is especially important as applying business like principles to higher education often receives heavy criticism The book helps readers decipher the appropriate uses of different strategy tools to the higher education industry but the book also points out dangers and weaknesses All of this is done within today s context of political economic demographic and global realities

Applying MBA Knowledge and Skills to Healthcare Reza Nassab, Vaikunthan Rajaratnam, Michael Loh, 2017-11-22 Clinicians

increasingly need a firm grasp of the fundamental principles of business management finance and related subjects Even so business disciplines are still rarely taught during medical training while busy practices and complicated accounting tasks mean that gaining business acumen on the job is impractical for many As a result increasing numbers of clinicians learn the skills they need by taking an MBA Masters in Business Administration While an MBA may be the answer for some the formidable costs and time commitment it demands leave many busy practitioners seeking more accessible options This book provides a readable tightly organised alternative a primer on MBA principles and their practical application Twelve compact carefully structured modules cover the entire gamut of a business education from basic finance and accounting principles to strategic management methods and leadership theories Unlike some similar texts this book is designed to be light in tone easy to read and digest and thoroughly practical Busy clinicians academic surgeons administrative physicians and other healthcare professionals will find this an invaluable resource in understanding the core principles of business management Allied medical professionals and nurses will also find it useful as will interview candidates who increasingly face management questions as part of selection processes An invaluable resource in understanding the core principles of business management and in learning how to apply them For busy clinicians the value proposition is enormous in terms of the knowledge gained versus the amount of reading required to capture what the authors have so capably managed to distill between the covers The authors have done a remarkable task in capturing the latest concepts and thinking in the business management arena and the essence of an entire MBA education and customise it for healthcare professionals A delight From the Foreword by B Sonny Bal
