Collaborative Product and Service Life Cycle Management for a Sustainable World Richard Curran, Shuo-Yan Chou, Amy J. C. Trappey, 2008-08-31 Collaborative Product and Service Life Cycle Management for a Sustainable World gathers together papers from the 15th ISPE International Conference on Concurrent Engineering CE2008 to stimulate the new thinking that is so crucial to our sustained productivity enhancement and quality of life. It is already evident in this new century that the desire for sustainable development is increasingly driving the market to reach for new and innovative solutions that more effectively utilize the resources we have inherited from previous generations with the obvious responsibility to future generations. Human productivity and progress can be positively engineered and managed in harmony with the provision and needs of our natural environment. One century on from the industrial revolution this is now the time of the sustainable revolution requiring holistic technological process and people integrated solutions to sustained socio-economic enhancement.

Aeronautics and Astronautics Max Mulder, 2011-09-12 In its first centennial aerospace has matured from a pioneering activity to an indispensable enabler of our daily life activities. In the next twenty to thirty years aerospace will face a tremendous challenge the development of flying objects that do not depend on fossil fuels. The twenty three chapters in this book capture some of the new technologies and methods that are currently being developed to enable sustainable air transport and space flight. It clearly illustrates the multi disciplinary character of aerospace engineering and the fact that the challenges of air transportation and space missions continue to call for the most innovative solutions and daring concepts.
