Cost Effectiveness And Productivity Kpis Eurocontrol:

Institutional Reform of Air Navigation Service Providers Rui Neiva, 2015-10-30 *Institutional Reform of Air Navigation Service Providers* deals with the changes that have taken place in this major technologically progressive industry as many countries moved away from direct provision by the government to forms of corporate or private provision The author provides an up to date institutional and economic analysis of air navigation service providers efforts to reform their governance and funding structures under these changes The book discusses air navigation service providers in great detail with a focus on the historical evolution of the industry s institutional and regulatory frameworks as well as the ongoing developments in the industry e g the Single European Sky in Europe and NextGen in the US The author departs from the more conventional quasi descriptive analysis by performing economic and econometric analyses of the industry that explicitly include institutional variables e g to explore whether the nature of ownership can be associated with different economic efficiency outcomes The result is a rigorous assessment of the structures of various air navigation service providers strengthened by the use of case studies and policy analysis of potential reform The theme and scope of this book will appeal to anyone interested in the institutional and regulatory history of air navigation service providers and its accessible approach will appeal to policy makers and professionals as well as people who are interested more broadly in economic regulation
