*System* Subhas Ramcharan, Thomas Fleming, Willem De Lint, 2001 **State Control** Robert Ratner, John L. McMullan, 1987 The study of social control has long been of academic interest Group living requires the establishment of social and legal norms to govern behaviour and societies seek to prevent violations of these norms by imposing penalties on those who break

the rules One form of legal violation is categorized as crime and the perpetrators as criminals Many criminologists study these rule breakers to find out why they step outside the mores and laws of their society Other criminologists however aim their analysis in another direction at the social order itself Crime they believe is as much indicative of a problem in the society as in the individual who responds negatively to that society Using a Marxist perspective these radical criminologists argue that the elimination of crime can only come about through dramatic changes in the economic and political structures of society and that any concept of state control of crime must be developed in conjunction with a theory of the state State Control is the first book to apply this sociology of the state framework to the Canadian system of state control In eleven specially commissioned chapters scholars critically examine the links between the Canadian State and social control to provide radical criminology in this country with empirical illustration and historical specificity and to provoke conceptual development The text is organized in three sections with each section containing two papers on related topics plus a third paper presenting critical commentary An introduction and epilogue by the editors outline the contending criminological theories and the current theoretical impasse in Canadian criminology and suggest new directions for a sociology of the state and social control In Part 1 contributors focus on the problem of criminal justice reform in Canada seeking to clarify some of the integral ties between reform movements and the state and questioning the very definition of reform Part 2 uses contemporary theoretical and empirical models to analyze the relative autonomy of the state thesis as it applies to the Canadian criminal justice and legal systems A third section contains theoretical and historical examinations of the Canadian State as they relate to criminal justice policies This book will be of wide interest among students of sociology criminology law political science and Canadian studies
