Through the Screen Francesco Striano, 2024-12-30 When Alice steps through the mirror in Lewis Carroll's *Alice's Adventures in Wonderland* she removes herself from the centre of vision and perspective restoring the autonomy of everything else that lies beyond the mirror Similarly the philosopher who wishes to engage with the contemporary medial system must pass through the screen recognising the autonomy of the non human components of the system but also understanding the human role within the system itself Perched between philosophy and other disciplines such as psychology sociology neuroscience computer science electronics cultural studies French media studies German Medienarchäologie and first order cybernetics this book challenges our contemporary screen experience and provides the reader with new tools with which to understand it as well as novel insights into the role of philosophy in the digital condition Its aim ultimately is to lay the foundations of a general theory of being and culture by examining them through their technological manifestations

Anime's Identity Stevie Suan, 2021-11-09 A formal approach to anime rethinks globalization and transnationality under neoliberalism Anime has become synonymous with Japanese culture but its global reach raises a perplexing question what happens when anime is produced outside of Japan Who actually makes anime and how can this help us rethink notions of cultural production In *Anime's Identity* Stevie Suan examines how anime's recognizable media form no matter where it is produced reflects the problematics of globalization The result is an incisive look at not only anime but also the tensions of transnationality Far from valorizing the individualistic originality so often touted in national creative industries anime reveals an alternate type of creativity based in repetition and variation In exploring this alternative creativity and its accompanying aesthetics Suan examines anime from fresh angles including considerations of how anime operates like a brand of media the intricacies of anime production occurring across national borders inquiries into the selfhood involved in anime's character acting and analyses of various anime works that present differing modes of transnationality *Anime's Identity* deftly merges theories from media studies and performance studies introducing innovative formal concepts that connect anime to questions of dislocation on a global scale creating a transformative new lens for analyzing popular media

The Stone and the Wireless Shaoling Ma, 2021-05-03 In the final decades of the Manchu Qing dynasty in China technologies such as the phonograph telephone telegraph and photography were both new and foreign In *The Stone and the Wireless* Shaoling Ma analyzes diplomatic diaries early science fiction feminist poetry photography telegrams and other archival texts and shows

how writers intellectuals reformers and revolutionaries theorized what media does despite lacking a vocabulary to do so Media defines the dynamics between technologies and their social or cultural forms between devices or communicative processes and their representations in texts and images More than simply reexamining late Qing China s political upheavals and modernizing energies through the lens of media Ma shows that a new culture of mediation was helping to shape the very distinctions between politics gender dynamics economics and science and technology Ma contends that mediation lies not only at the heart of Chinese media history but of media history writ large

Terrorizing Images Charles Ivan Armstrong,Unni Langas,2020-09-07 It is broadly accepted that terrorizing images are often instrumentalized in periods of conflict to serve political interests This volume proposes that paying attention to how images of trauma and conflict are described in literary texts i e to the rhetorical practice known as ekphrasis is crucial to our understanding of how such images work The volume s contributors discuss verbal images of trauma and terror in literary texts both from a contemporary perspective and as historical artefacts in order to illuminate the many different functions of ekphrasis in literature The articles in this volume reflect the vast developments in the field of trauma studies since the 1990s a field that has recently broadened to include genres beyond the memoir and testimony and that lends itself well to new postcolonial feminist and multimedia approaches By expanding the scholarly understanding of how images of trauma are described interpreted and acted out in literary texts this collected volume makes a significant contribution to both trauma and memory studies as well as more broadly to cultural studies

Créer la cyberculture Simone Lackerbauer,2014-09-10 Th se de Master de l ann e 2012 dans le domaine Sociologie Culture Technique Nations note 18 20 Universit Panth on Assas Paris II Institut fran ais de presse cours S minaire Evolution des publics et de la propagande langue fran ais r sum Les mouvements contreculturels la cyberculture et la r volution de l ordinateur personnel partir des ann es 1970 sont des p riodes pleines de changements de paradoxes et d imaginaires Non seulement l identit et les

apprentissages personnels mais aussi le rapport la créativité et aux imaginaires utopiques du devenir de la société sont bouleversés au moment où le cyberspace devient accessible d'abord pour les pionniers de la cyberculture et ensuite pour le grand public. Ce travail pose la question suivante : comment est-ce que l'invention de l'ordinateur personnel par les premiers informaticiens son emploi et l'émergence de la cyberculture ont modifié les pratiques individuelles d'autodidaxie et de créativité et pourquoi est-ce que cela a vu la montée d'utopies technologiques pendant les années 1980-1990 ? L'exploration de l'émergence de la cyberculture autour de l'ordinateur professionnel commence avec une approche centrée sur l'individu. Apprendre l'outil l'individu et ses pratiques dans la cyberculture émergente. L'intérêt de cette partie est de présenter le terrain des pratiques individuelles dans la cyberculture. Dans une deuxième partie on passe l'échelle des pratiques individuelles et on s'intéresse à la cyberculture. Gouverner les médiations les terrains de la cybersocial reality. L'objectif de cette partie n'est pas seulement de raconter l'histoire de la cyberculture du point de vue des pionniers et de l'ordinateur personnel mais aussi de savoir en quoi la pénetration technologique et le cyberspace bouleversent les relations sociales dans la réalité. Avec une troisième partie Comprendre les usages de l'imagination aux utopies technologiques on abandonne même les terrains de la réalité dans l'histoire de la cyberculture et les tensions sociotechniques autour d'elle. Partant d'une exploration logique des concepts traités on essaie de manœuvrer dans les sphères utopiques en dehors de la cyberculture où les frontières entre le temps et l'espace sont bouleversées et ouvrent la voie pour les imaginaires.

Penser les médias au théâtre Simon Hagemann, 2013-12-01 Ce livre étudie la place des médias de masse sur les scènes théâtrales des XXe et XXIe siècles et vise à terminer l'importance de la pensée des médias par les artistes pour la compréhension des grandes mutations théâtrales de cette période. Il s'interroge sur les fonctions du théâtre dans un paysage où les arts et les médias sont en situation de concurrence et d'inspiration réciproque et réfléchit aux conséquences de cette situation sur le théâtre lui-même des médias numériques.
