Crop Post Harvest Handbook Volume 1 Principles And Practice:

Crop Post-Harvest: Science and Technology, Crop Post-Harvest Peter Golob, Graham Farrell, John E. Orchard, 2002-12-13

World wide losses of crops post harvest through microbial action pests diseases and other types of spoilage amount to millions of tons every year This essential handbook is the first in a three volume series which covers all factors affecting post harvest quality of all major fruits vegetables cereals and other crops Compiled by members of the world renowned Natural Resources Institute at the University of Greenwich Chatham UK the comprehensive contents of this landmark publication encourage interactions between each sector of the agricultural community in order to improve food security food safety and food quality in today s global atmosphere Through the carefully compiled and edited chapters internationally respected authors discuss ways to improve harvest yield and quality drawing on their many years practical experience and the latest research findings applications and methodologies Subjects covered include an introduction to the systems used in post harvest agricultural processes physical and biological factors affecting post harvest commodities storage issues pest management food processing and preservation food systems the latest research and assimilation of this work and current trade and international agreements An invaluable glossary showing important pests pathogens and plants is also included

Crop Post Harvest Science and Technology Volume 1 Principles and Practice is a must have reference book which offers the reader an overview of the globalisation of post harvest science technology economics and the development of the storage and handling of perishable and durable products Volumes 2 and 3 will go on to explore durables and perishables individually in more detail with many case studies taken from around the globe This 3 volume work is the standard handbook and reference for all professionals involved in the harvesting shipping storage and processing of crops including agricultural and plant scientists food scientists and technologists microbiologists plant pathologists entomologists and all post harvest shipping and storage consultants Libraries in all universities and research establishments where these subjects are studied and taught should have multiple copies on their shelves

Crop Post-Harvest: Science and Technology, Volume 3 Debbie Rees, Graham Farrell, John Orchard, 2012-01-30 International trade in high value perishables has grown enormously in the past few decades In the developed world consumers now expect to be able to eat perishable produce from all parts of the world and in most cases throughout the year Perishable plant products are however susceptible to physical damage and often have a potential storage life of only a few days Given their key importance in the world economy Crop Post Harvest Science and Technology Perishables devotes itself to perishable produce providing current and comprehensive knowledge on all the key factors affecting post harvest quality of fruits and vegetables This volume focuses explicitly on the effects and causes of deterioration as well as the many techniques and practices implemented to maintain quality though correct handling and storage As highlighted throughout regular losses caused by post harvest spoilage of perishable products can be as much as 50% A complete understanding as provided by this excellent volume is therefore vital in helping to reduce these losses by a

significant percentage Compiled by members of the world renowned Natural Resources Institute at the United Kingdom s University of Greenwich with contributions from experts around the world this volume is an essential reference for all those working in the area Researchers and upper level students in food science food technology post harvest science and technology crop protection applied biology and plant and agricultural sciences will benefit from this landmark publication Libraries in all research establishments and universities where these subjects are studied and taught should ensure that they have several copies for their shelves Crop Post-Harvest: Science and Technology, Volume 2 Rick Hodges,Graham Farrell,2004-10-29 Durable commodities are the raw products from which food can be made and are the staples on which most humans rely with but a few exceptions they are the seeds of plants Volume 1 of this ground breaking book series details below explains how crops should be dried handled protected from pests and stored by smaller holders or large scale enterprises This second volume presents a series of case studies on how durable crops are actually stored and marketed The compilation of this three volume work has been supported and is endorsed by the Natural Resources Institute of the University of Greenwich U K The editors of this comprehensive and thorough book are well known and respected in the world of post harvest science and technology They have drawn together 36 expert contributors from Europe North America Asia Australasia South America and Africa to provide a huge wealth of information on major world crops including rice maize wheat barley sorghum beans cowpea oilseeds peanuts copra coffee cocoa dried fruit and nuts and dried fish Crop Post Harvest Volume 2 is an essential purchase for cereal technologists food scientists and technologists agricultural scientists entomologists post harvest crop protection specialists and consultants commercial growers shippers and warehousing operatives and personnel of packaging companies Researchers and upper level students in food science food technology post harvest science and technology crop protection applied biology and plant and agricultural sciences will find a huge amount of great use within this landmark publication and the three volume series as a whole All libraries in research establishments and universities where these subjects are studied and taught should have several copies of each on their shelves **Drying Atlas** Werner Muhlbauer,Joachim Muller,2020-02-21 Drying Atlas Drying Kinetics and Quality of Agricultural Products provides in a condensed and systematic way specific insights on the drying relevant properties and coefficients of over 40 agricultural products It also presents information about the production methods that influence the drying process the quality of the dried product the official quality standards of the products and the design principles and operating characteristics of drying systems that are widely used in the postharvest processing and food industry Available books on drying technology mainly focus on drying theory and simulation of drying processes This book offers systematic information on the impact of other important parameters such as relative humidity air flow rate mechanical thermal and chemical pre treatment and drying mode for specific products It is a unique and valuable reference for scientists and engineers who want to focus on industrial drying applications and dryers as well as graduate and post graduate students in postharvest technology and

drying Explores the production methods that influence the drying process and quality of the dried product Outlines the official quality standards of the products the design principles and the operating characteristics of drying systems that are used in postharvest processing Features 41 chapters that are each for an agricultural product presented in a condensed and systematic way *Postharvest Extension and Capacity Building for the Developing World* Majeed Mohammed,Vijay Yadav Tokala,2018-12-07 It is estimated that around 1 3 billion tons per year of food produced for human consumption which is about one third of all food produced is either lost or wasted globally Reduction of the postharvest losses is being considered as one of the sustainable ways to ensure world food security Postharvest Extension and Capacity Building for the Developing World provides information on postharvest extension outreach programs capacity building and practical methodologies for postharvest extension professionals and food science teachers food processing trainers and outreach specialists who work in the field The book provides information on training of postharvest trainers food loss assessment methods capacity building in universities and agro industry distance education methods models for cost effective postharvest food processing extension work success stories and lessons learned from past projects and programs The book is divided into four sections Section I explains postharvest loss assessments methods Section II is on capacity building and Sections III and IV focus on training and postharvest extension models Food loss assessment methodologies are highlighted from several high profile institutions and it is envisioned that researchers and postharvest extension personnel will benefit from the development and field testing of a hybrid methodology incorporating the strengths and utilizing the best practices from each of the methodologies in current use Chapters cover postharvest extension work and capacity building in a wide range of regions Maize Sukhvinder Singh Purewal,Pinderpal Kaur,Sneh Punia Bangar,Kawaljit Singh Sandhu,Surender Kumar Singh,Maninder Kaur,2022-09-30 Maize is widely cultivated throughout the world due to its high yield potential The economic and nutritional value of maize grains is associated with its starch content protein fibre bioactive compounds and minerals Maize is used worldwide in the preparation of health benefiting antioxidant rich fortified products and dietary supplements Maize Nutritional Composition Processing and Industrial Uses explores the status of maize in terms of its production nutritional composition biofortification processing methods health benefits maize based products and storage This book also emphasizes the key features of maize grains which make it an ideal crop for industrial use It covers all aspects of recent research about the maize and provides updated information Features Discusses information related to chemistry of maize components Highlights comprehensive information on the physical and milling properties of maize Explains the structure functional and antioxidant properties of maize flour Provides the latest scientific development in the modification of maize starch Explores various maize based food products and their storage Examines maize protein scenarios and quality improvement through bio fortification In depth information is provided regarding various health benefiting nutrient components of maize flour offering meaningful information for product formulation This book unfolds the potential of maize grains for industrial use Waste to Energy:

Prospects and Applications Brijendra Kumar Kashyap, Manoj Kumar Solanki, Dev Vrat Kamboj, Akhilesh Kumar Pandey, 2021-02-16 This book addresses waste generation problems from various sectors including industries agriculture and household It focuses on how modern biotechnological approaches could help manage waste in an eco friendly manner and generate precious bioenergy It discusses the inadequate waste management systems damaging the environment and its adverse impacts on climate change related problems This book covers all the essential information regarding various types of waste and their management It is a comprehensive compilation for understanding the efficient generation of bioenergy It is a relevant reading material resource for anyone who wishes to study waste management as Chemist Biologist Biotechnologist Industrialist Ecologist Microbiologist Economist and all disciplines related to the environment *Vegetable and Spice Crop Production in West-Africa* Daniel Obeng-Ofori, 2007 **Food Loss and Food Waste** Michael Blakeney, Global food insecurity is a growing issue At a time when the world's population is increasing and agricultural production is challenged by climate change it is estimated that around a third of the food produced globally is lost or wasted This book examines the problem of food loss and waste FLW and the policies that could be enacted to remedy this fundamental global concern **Small Farm Today**, 2002 Crop Post-harvest Golob Peter, 2002 **Subject Guide to Books in Print**, 2001 *Rural Structures in the Tropics* Geoffrey C.
