**Handbook of Research on Modern Cryptographic Solutions for Computer and Cyber Security** Gupta, Brij, Agrawal, Dharma P., Yamaguchi, Shingo, 2016-05-16 Internet usage has become a facet of everyday life especially as more technological advances have made it easier to connect to the web from virtually anywhere in the developed world. However, with this increased usage comes heightened threats to security within digital environments. The Handbook of Research on Modern Cryptographic Solutions for Computer and Cyber Security identifies emergent research and techniques being utilized in the field of cryptology and cyber threat prevention. Featuring theoretical perspectives, best practices, and future research directions, this handbook of research is a vital resource for professionals, researchers, faculty members, scientists, graduate students, scholars, and software developers interested in threat identification and prevention.

**Computational Intelligence and its Applications** Vikash Yadav, Vimal Kumar, Sonam Gupta, Vandana Dixit Kaushik, 2025-03-14 Computational Intelligence and its Applications explores cutting-edge advancements in machine learning, data science, and their practical applications. This comprehensive guide caters to college students, researchers, and professionals, equipping readers with the knowledge to navigate and leverage the latest trends in computational intelligence effectively. Key Features: Emerging Technologies: Covers post-quantum cryptography, secure communication, and advancements in chatbot technology. Practical Applications: Includes stock price prediction, cloud computing, and data-driven DNA sequencing. Security and Detection: Enhances intrusion detection and analyzes crop disease using machine learning. Natural Language Processing: Explores sentiment analysis and the impact of big data on natural language processing. Advanced Techniques: Discusses blockchain technology, remote sensing, and depression detection on social media.

**Cryptography and Network Security** William Stallings, 2011 This text provides a practical survey of both the principles and practice of cryptography and network security. **Pattern and Data Analysis in Healthcare Settings** Tiwari, Vivek, Tiwari, Basant, Thakur, Ramjeevan Singh, Gupta, Shailendra, 2016-07-22 Business and medical professionals rely on large data sets to identify trends or other knowledge that can be gleaned from the collection of it. New technologies concentrate on data management but do not facilitate users' extraction of meaningful outcomes. Pattern and Data Analysis in Healthcare Settings investigates the approaches to shift computing from analysis on demand to knowledge on demand. By providing innovative tactics to apply data and pattern analysis, these practices are optimized into pragmatic sources of knowledge for healthcare professionals. This publication is an exhaustive source for policy makers, developers, business professionals, healthcare providers, and graduate students concerned with data retrieval and analysis. **Cloud Security: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources, 2019-04-01 Cloud computing has experienced explosive growth and is expected to continue to rise in popularity as new services and applications become available. As with any new technology, security issues continue to be a concern, and developing effective methods to protect sensitive

information and data on the cloud is imperative Cloud Security Concepts Methodologies Tools and Applications explores the difficulties and challenges of securing user data and information on cloud platforms It also examines the current approaches to cloud based technologies and assesses the possibilities for future advancements in this field Highlighting a range of topics such as cloud forensics information privacy and standardization and security in the cloud this multi volume book is ideally designed for IT specialists web designers computer engineers software developers academicians researchers and graduate level students interested in cloud computing concepts and security

Current Problems of Applied Mathematics and Computer Systems Anatoly Alikhanov, Andrei Tchernykh, Mikhail Babenko, Irina Samoylenko, 2024-09-01 This book is based on the best papers accepted for presentation during the International Conference on Current Problems of Applied Mathematics and Computer Systems APAMCS 2023 The book includes research materials on mathematical problems and solutions in the field of scientific computing artificial intelligence data analysis and modular computing The scope of numerical methods in scientific computing presents original research including mathematical models and software implementations related to the following topics numerical methods in scientific computing solving optimization problems methods for approximating functions etc The studies in data analysis and modular computing include contributions in the field of deep learning neural networks mathematical statistics machine learning methods residue number system and artificial intelligence In addition some articles focus on mathematical modeling of nonlinear physical phenomena Finally the book gives insights into the fundamental problems in mathematics education The book intends for readership specializing in the field of scientific computing parallel computing computer technology machine learning information security and mathematical education

*Progress in Computing, Analytics and Networking* Prasant Kumar Pattnaik, Siddharth Swarup Rautaray, Himansu Das, Janmenjoy Nayak, 2018-04-10 The book focuses to foster new and original research ideas and results in three broad areas computing analytics and networking with its prospective applications in the various interdisciplinary domains of engineering This is an exciting and emerging interdisciplinary area in which a wide range of theory and methodologies are being investigated and developed to tackle complex and challenging real world problems It also provides insights into the International Conference on Computing Analytics and Networking ICCAN 2017 which is a premier international open forum for scientists researchers and technocrats in academia as well as in industries from different parts of the world to present interact and exchange the state of art of concepts prototypes innovative research ideas in several diversified fields The book includes invited keynote papers and paper presentations from both academia and industry to initiate and ignite our young minds in the meadow of momentous research and thereby enrich their existing knowledge The book aims at postgraduate students and researchers working in the discipline of Computer Science Engineering It will be also useful for the researchers working in the domain of electronics as it contains some hardware technologies and forthcoming communication technologies
