Catholicism in Migration and Diaspora Gemma Tulud Cruz, 2022-07-28 This book focuses on the Philippines as a powerhouse in the Catholic and global migration landscape. It offers a wide-ranging look at the roles, dynamics, character, and trajectories of Catholic faith and practice in the age of migration through an interdisciplinary religious and theological approach to Filipino Catholics' experience of migration and diaspora both at home and overseas. In so doing, the book introduces the reader to the hallmarks and characteristics of a contextual model of world Christianity and global Catholicism in the twenty-first century.

Full Spectrum Dominance Maria Ryan, 2019-09-24 America's war on terror is widely defined by the Afghanistan and Iraq fronts. Yet as this book demonstrates, both the international campaign and the new ways of fighting that grew out of it played out across multiple fronts beyond the Middle East. Maria Ryan explores how secondary fronts in the Philippines, sub-Saharan Africa, Georgia, and the Caspian Sea Basin became key test sites for developing what the Department of Defense called full spectrum dominance: mastery across the entire range of possible conflict from conventional through irregular warfare. Full Spectrum Dominance is the first sustained historical examination of the secondary fronts in the war on terror. It explores whether irregular warfare has been effective in creating global stability or if new terrorist groups have emerged in response to the intervention. As the U.S. military, Department of Defense, White House, and State Department have increasingly turned to irregular capabilities and objectives, understanding the underlying causes as well as the effects of the quest for full spectrum dominance become ever more important. The development of irregular strategies has left a deeply ambiguous and concerning global legacy.

Babaylan Sing Back Grace Nono, 2021-11-15 Babaylan Sing Back depicts the embodied voices of Native Philippine ritual specialists, popularly known as babaylan. These ritual specialists are widely believed to have perished during colonial times or to survive on the margins in the present day. They are either persecuted as witches and purveyors of superstition or valorized as symbols of gender equality and anticolonial resistance. Drawing on fieldwork in the Philippines and in the Philippine diaspora, Grace Nono's deep engagement with the song and speech of a number of living ritual specialists demonstrates Native historical agency in the 500th year anniversary of the contact between the people of the Philippine Islands and the European colonizers.

The Sahara of I Luis H. Francia, 2024-07 Luis Francia is a poet in the tradition of Emily Dickinson and Jos Garcia Villa and shares with them a compulsion to write serious poems, poems deeply concerned with the metaphysical that are nonetheless filled with incandescent wordplay, humor, and even at times joy.

In The Sahara of I Luis H Francia once again shares his marvelous gift for probing insight humor alliterative wordplay and serious observations of humanity in all its complexity Francia contemplates our living and our dead not to mention our hidden connection amid apparent isolation Few writers wield such irony and romance simultaneously It is a sparkling pathos a playful gravity Luis H Francia

A History of the Philippines David P. Barrows, 1914

A History of the Philippines (Annotated) David Prescott Barrows, 2021-01-24

This book is only an introduction to the history of the Philippines under Spanish and American rule Thus informs author David Prescott Barrows in the preface of this second edition of A History of the Philippines published in 1905 which is only within 5 years from the beginning of America s governance of the Southeast Asian archipelago As such this work receives the distinction of being among the very first definitive resources on Philippine history written in English Mr Barrows historical account is written with the original intent of making it an educational reference for students in Philippine public schools It begins with the author s examination of the country as a subject for historical study comparing it to another Asian nation Japan This comparison is quite prophetic and not without irony because the American administration was superseded by the Japanese occupation during World War II In the next chapter he touches on ethnology discussing the first settlers of the archipelago and how Islam found its place among the locals It is quite odd that this topic is immediately followed by a concise run through Western history most possibly in an attempt to illustrate the circumstances that contributed to the discovery and colonization of the Philippines Mr Barrows managed to relay facts in an objective manner albeit with a decidedly favorable nod towards American rule made obvious in his preface and in the chapter on American occupation This is not surprising and is even expected The early 1900s was a shaky period in Philippine history where a firm and experienced hand was needed to run the country and get it back on its feet after its liberation from 300 years of Spanish rule Students as well as those seeking to learn about the history of this Asian country will benefit from this concisely written edition This book has been prepared at the suggestion of the educational authorities for pupils in the public high schools of the Philippines as an introduction to the history of their country Its preparation occupied about two years while the author was busily engaged in other duties much of it being written while he was traveling or exploring in different parts of the Archipelago For the writer as well as for the pupil for whom it is intended it is an introduction into the study of the history of Malaysia

A History of the Philippines Renato Constantino, Letizia R. Constantino, 1975

Unlike other conventional histories the unifying thread of A History of the Philippines is the struggle of the peoples themselves against various forms of oppression from Spanish conquest and colonization to U S imperialism Constantino provides a penetrating analysis of the productive relations and class structure in the Philippines and how these have shaped and been shaped by the role of the Filipino people in the making of their own history Additionally he challenges the dominant views of Spanish and U S historians by exposing the myths and prejudices propagated in their work and in doing so makes a major breakthrough toward intellectual decolonization This book is an indispensable key to the history of conquest and resistance in the Philippine
