Generative AI for Personalized Learning Rajesh Kumar Dhanaraj,Balasamy Krishnasamy,Umapriya Rajendran,Suganyadevi Sellappan,Rohan Jaikumar,2025-11-25

The rapid evolution of generative AI GenAI is reshaping education making personalized learning more adaptive accessible and effective than ever before This book explores the profound ways in which GenAI driven tools such as GPT 4 transformers and GANs are transforming traditional teaching and learning paradigms From real time curriculum adaptation to AI powered tutors GenAI is not just enhancing education it is redefining it Through in depth analysis and real world case studies from Finland Singapore Japan and the United States this book examines how AI driven learning environments foster student engagement and improve outcomes It highlights the shift from one size fits all education to truly individualized learning paths where AI dynamically adjusts content pacing and feedback to each learner s needs Teachers rather than being replaced are empowered with intelligent tools that enhance their instructional strategies The rise of AI in education also brings critical challenges This book does not shy away from discussing ethical concerns data privacy issues and the risks of bias in AI driven education It provides a balanced perspective offering strategies to ensure that GenAI serves all students equitably promoting fairness and inclusivity in the classroom Whether you are an educator researcher policymaker or technology leader

Generative AI for Personalized Learning offers valuable insights into the future of education. It presents a forward thinking vision where AI and human expertise work in harmony to create a more responsive, scalable and learner centric educational experience. The future of learning is not coming, it is already here. This book is your essential guide to understanding and navigating this transformation. Handbook of Research on Critical Issues in Special Education for School Rehabilitation Practices Singh, Ajay, Yeh, Chia Jung, Blanchard, Sheresa, Anunciação, Luis, 2021-04-23. Rehabilitation professionals working with students with disabilities and the families of those students face unique challenges in providing inclusive services to special education student populations. There needs to be a focus on adaptive teaching methods that provide quality experience for students with varying disabilities to promote student success and inclusivity. Critical issues within these practices span autism, diverse students, gifted education, learning disabilities, behavioral and emotional disorders and more. With having many different types of students with vastly different situations, it is important for rehabilitation professionals to understand the best practices and learning systems for special education students who have a wide range of needs and challenges. The Handbook of Research on Critical Issues in Special Education for School Rehabilitation Practices focuses on the issues and challenges rehabilitation professionals face in special education and how they can provide inclusive and effective services to diverse student populations. This book highlights topics such as culturally responsive teacher preparation, artificial intelligence in the classroom, universal design, inclusive development and school rehabilitation and explores the effects these newfound practices in education have on various types of students with disabilities. This book is essential for special education teachers, administrators, counselors, practitioners, researchers, academicians and students interested in the new methods, theories and solutions for the best practices in inclusive and effective special education.
