Quick Ai Content Repurposing Guide In Usa:

Organizing for Generative AI and the Productivity Revolution Arthur J. O'Connor, 2024-11-07 As leaders plan to make significant investments to harness the power of foundational models such as ChatGPT they need to understand the changes in organizational behaviors required for the successful implementation of such systems The size complexity and nature of this new wave of technologies requires a refresh in roles and responsibilities in conventional IT organizations This book reveals practical and no nonsense guidance on how to leverage generative AI to transform your business processes and organizational structures to achieve breakthroughs in efficiency effectiveness and competitive advantage Written in a lively engaging and often humorous style this work provides practical insights and timely survival skills for leaders with anonymous but real world experiences and case studies If you re looking to understand how large language foundation models such as ChatGPT are reshaping managerial roles and organizational structures and how they can leverage this knowledge to survive and thrive in this brave new world then *Organizing for Generative AI and the Productivity Revolution* is the book for you

What You Will Learn Review the key changes in current state roles and responsibilities that are required to successfully deploy generative AI systems Examine the organizational reporting structures and associated incentives that form a strong generative AI system Understand the financial regulatory and operational risks created by organizational behavioral issues that arise when organizations build and deploy large language models Compare the strategic differences in emerging versus traditional organizational behaviors incentives roles and responsibilities

Who This Book Is For Executives and team leaders at enterprises large and small The book addresses an important topic how to set up an organization for success particularly in Generative AI Generative AI brings new challenges to organizations in terms of how to structure the organization for success mitigating risks software development lifecycle and tracking ROI I could think of no better person to tackle these issues than Arthur O Connor who has extensive experience in technology within some of the largest enterprises in Wall Street complemented by his academic background He brings an insightful and unique perspective for technology leaders who want to set up their organizations for success in Generative AI
