The Ethical Persuasion Artist Belinda Nell, 2025-08-20 The Sales Book That Won't Make You Want to Hide Under Your Desk You've thrown more cash at sales courses than most people spend on a decent car You've endured countless webinars promising to transform your pipeline and sat through seminars where shouty motivational speakers flog their next course for roughly the price of a kidney Yet here you are still wondering how to close deals without feeling like a complete fool Say hello to *The Ethical Persuasion Artist* the sales book that talks to you like a grown up instead of a walking wallet with abandonment issues The sales industry overflows with people teaching techniques they've never actually used to close proper deals with real money It's like taking driving lessons from someone whose only experience with cars involves watching *Top Gear* Your prospects can detect desperation quicker than a dodgy prawn sandwich They've been pitched at more times than a county cricket match and they're thoroughly cheesed off with salespeople who sound like they've consumed a corporate jargon manual for breakfast This book takes a different approach entirely and won't cure your insomnia It's written by someone who's actually sold things Proper things To genuine companies With actual budgets Groundbreaking stuff really You'll understand why emotions drive 95% of buying decisions which explains why your perfectly logical presentations keep losing to competitors who grasp that people buy with their hearts and justify with their calculators We'll examine the psychology of trust building because relationships matter more than your quarterly targets and customers can tell when you're more interested in your commission than their actual problems You'll learn to communicate across cultures without accidentally insulting anyone's business practices family traditions or preferred biscuit dunking methods We'll tackle virtual selling reality because video calls aren't disappearing and neither is your need to build genuine connections through a laptop screen whilst your cat attempts to gate crash every important meeting You won't discover cheesy closing techniques manipulation tactics that make you feel grubby or scripts that make you sound like a malfunctioning chatbot You will find research backed strategies that work genuine conversations you can have with actual humans and approaches that help you sleep better knowing you're genuinely helping people solve problems Perfect for sales professionals who want to close more deals without losing their dignity are fed up with courses costing more than a small house deposit believe business relationships should be built on mutual respect rather than mutual deception and

suspect there might be a better way to sell without checking their soul at reception Stop wasting money on sales training that doesn't work Start building communication skills that turn prospects into advocates and transactions into proper relationships Your bank account will thank you Your conscience will thank you Your prospects might actually thank you too

Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates? Huong Hoang Thien, 2023-05-25 Master's Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1.0 language English abstract What will happen if there aren't enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany's 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID-19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany's weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of

workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren't any specific regulations regarding remote work in Germany yet In general remote work provides workers e.g. more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber security When everything's going remotely companies have become an easier target of cyber attacks
