Introduction to Information Systems R. Kelly Rainer, Brad Prince, 2023-09-20 Introduction to Information Systems 10th Edition teaches undergraduate business majors how to use information technology to master their current or future jobs Students will see how global businesses use technology and information systems to increase their profitability gain market share develop and improve their customer relations and manage daily operations This course demonstrates that IT is the backbone of any business whether a student is majoring in accounting finance marketing human resources production operations management or MIS In short students will learn how information systems provide the foundation for all modern organizations whether they are public sector private sector for profit or not for profit

Disruptive Artificial Intelligence and Sustainable Human Resource Management Anamika Pandey, Balamurugan Balusamy, Naveen Chilamkurti, 2023-12-14 It is well established that every organization is founded with a specific purpose and goals Virtually all business organizations obtain measurements and metrics dealing with outcomes and

results However what is reflected on the balance sheet does not necessarily show the actual worth of the organizations and ensure their survival and sustainability Thus the question arises what exactly makes the organizations sustainable and thriving in an ever changing environment There are several examples of companies like Faber Castell Bank of Ireland Chivas DuPont and many more which have been able to sustain and survive over more than 200 years and still have a successful existence in the present era Thus it is important for the organization to pay equal attention to its three bottom lines i e people profit and planet for its sustainability which not only meet the needs of the present generation but should have a futuristic approach as well In the present era organizations are adopting a new normal working dynamic and coping with the post pandemic situations to sustain themselves in the business environment Technology plays a significant role in this new working dynamic and cutting edge technologies like machine learning artificial intelligence blockchain ChatGPT Internet of Things and much more effectively facilitate human functioning at work The book aims to contribute to understanding and developing sustainable human resource management processes and practices aligned with recent technologies It highlights the interconnection among the three bottom line sustainable approaches for the growth and development of the organization Topics discussed in this book include Disruptive Technologies and HR Sustainability Convergence of Innovative Technologies HR and Organizational Growth Triple bottom line Sustainability for HRM Business oriented Talent analytics and HR Sustainability Role of Leadership in sustainable HRM practices
