Artificial Intelligence for Medicine Yoshiki Oshida, 2021-10-11 The use of artificial intelligence AI in various fields is of major importance to improve the use of resources and time This book provides an analysis of how AI is used in both the medical field and beyond Topics that will be covered are bioinformatics biostatistics dentistry diagnosis and prognosis smart materials and drug discovery as they intersect with AI Also an outlook of the future of an AI assisted society will be explored

The Executive Guide to Artificial Intelligence Andrew Burgess, 2017-11-15 This book takes a pragmatic and hype free approach to explaining artificial intelligence and how it can be utilised by businesses today At the core of the book is a framework developed by the author which describes in non technical language the eight core capabilities of Artificial Intelligence AI Each of these capabilities ranging from image recognition through natural language processing to prediction is explained using real life examples and how they can be applied in a business environment It will include interviews with executives who have successfully implemented AI as well as CEOs from AI vendors and consultancies AI is one of the most talked about technologies in business today It has the ability to deliver step change benefits to organisations and enables forward thinking CEOs to rethink their business models or create completely new businesses But most of the real value of AI is hidden behind marketing hyperbole confusing terminology inflated expectations and dire warnings of robot overlords Any business executive that wants to know how to exploit AI in their business today is left confused and frustrated As an advisor in Artificial Intelligence Andrew Burgess regularly comes face to face with business executives who are struggling to cut through the hype that surrounds AI The knowledge and experience he has gained in advising them as well as working as a strategic advisor to AI vendors and consultancies has provided him with the skills to help business executives understand what AI is and how they can exploit its many benefits Through the distilled knowledge included in this book business leaders will be able to take full advantage of this most disruptive of technologies and create substantial competitive advantage for their companies

Shifting Mobility Dewan Masud Karim, 2025-03-13 Embark on a journey into the heart of a new industrial revolution one that promises to redefine human mobility for generations to come In this groundbreaking exploration we confront the promises and perils of new mobility navigating the intricate landscape where technology intersects with urban society As cities evolve and technology shapes our daily lives the ethical dimensions of this transformation remain largely uncharted territory Amidst the rapid advancement of new mobility systems this book sheds light on the moral dilemmas and philosophical underpinnings that often go unnoticed From the ethical implications of technology to the systemic flaws in planning and design we delve into the core of this paradigm shift By understanding the foundational principles of mobility and the hidden codes that govern human movement we pave the way for a more equitable and inclusive future At the heart of this transformative vision lies a comprehensive framework for building a new mobility ecosystem one that prioritizes human well being and equity above all else Through innovative planning processes and

redesign concepts we aim to bridge the gap between technology and society ensuring that every individual has access to safe efficient and sustainable modes of transportation From low emission vehicles to multimodal transit hubs this book presents a blueprint for reimagining urban spaces and redefining the way we move By embracing shared values and collective responsibility we strive to create a world where mobility is not just a privilege but a fundamental human right As we embark on this journey towards a more sustainable future let us remember that the true measure of progress lies not in technological innovation alone but in our ability to build communities that thrive together Join us in shaping the future of mobility one where humanity and equity reign supreme
