Building a Brand for Nerds Guide Book Matt Kingsley, Let's be brutally honest You're smart You think logically You probably see patterns and systems where others see chaos And because of that you likely suspect that 90% of the social media marketing advice out there is complete unadulterated bullshit You're tired of the gurus shouting about passion and authenticity while offering zero repeatable process You're sick of chasing fleeting trends praying to algorithm gods and dumping time and money into strategies based on hope instead of math You see people celebrating vanity metrics likes followers that don't pay the bills and your analytical brain screams THIS IS STUPID And you're right It is stupid You're likely drowning in platform options contradictory advice and the overwhelming pressure to be everywhere doing everything all while feeling like you're fundamentally not built for this flashy often irrational world of marketing Maybe you've tried gotten mediocre results felt like you wasted precious time you could have spent building something real and decided social media is just a rigged game you can't win WRONG That analytical brain the one that craves logic data and efficient systems The one you might think is a disadvantage in this hype fueled circus That's your weapon That's your unfair advantage You just need the right operating system the right playbook designed for how you think Stop trying to play their game Play your game This book Social Media Marketing for Nerds isn't another collection of feel good fluff or soon to be obsolete hacks This is the blueprint for turning
