Universal Basic Income Brian McDonough, Jessie Bustillos Morales, 2019-11-14 Universal basic income is a controversial policy which is causing a stir amongst academics politicians journalists and policy makers all over the world The idea of receiving money for nothing with no strings attached has for a long time appeared a crazy or radical proposal But today this policy is being put into practice With more and more trials and experiments taking place in different countries this book provides both the theory and context for making sense of different basic income approaches examining how the policy can be best implemented Unlike many other texts written on this topic the book provides a balanced account of basic income weighing up the pros and cons from a number of different positions The book provides a theory chapter enabling readers to grasp some of the complex philosophical ideas and concepts which underpin universal basic income such as social justice equality and freedom It also provides an examples chapter which examines both historical and contemporary basic income studies to have taken place from around the globe The book also features chapters on the environment and the work of women as well as an against universal basic income chapter which specifically draws on the criticisms of the policy This volume is an essential resource for anyone who wishes to get to grips with universal basic income **Contractor** ,1914

Hernandez, 2022-06-16 The COVID 19 pandemic has disproportionately affected communities of color while highlighting the prevalence of structural racism in the United States This crucial collection of essays written by leading scholars from the fields of communications political science health philosophy and geography explores the manifold ways in which the COVID 19 pandemic has impacted upon Black Latinx and Indigenous communities and the way we see race relations in the United States The COVID 19 pandemic has exposed the significance of U S health inequalities which the World Health Organization defines as avoidable and unfair It has also highlighted structural racism specifically institutions practices values customs and policies that differentially allocate resources and opportunities so as to increase inequity among racial groups Navarro and Hernandez therefore argue that the COVID 19 pandemic has unleashed a race war in America that has further marginalized communities of color by limiting access to resources by different racial and ethnic minorities particularly women within these communities Moreover the systemic policies of the past that upheld or failed to address the unequal social conditions

affecting Blacks Latinxs and other minorities have now been magnified with COVID 19 The volume concludes by offering recommendations to prevent future humanitarian crises from exacerbating racial divisions and having a disproportionate impact upon ethnic minorities This timely volume will be of great interest to those interested in the study of race and the social impacts of the COVID 19 pandemic in the United States Electrical Construction and Maintenance ,1921
