case of this paper explicitly the written one is a powerful tool to exert authority and domination on others especially when used by people in power like politicians Therefore the question this paper tries to answer is how written discourse in the Tweets of Trump creates the feeling of separation and dominance that underlies the act of Othering and whether this reflects a direct or indirect and with this more subtle and normalized use of power discourse In this thesis only those people Trump constantly portrays as dangerous foreigners intruders therefore not Americans are included in the analysis by looking at how he structures his discourse around them These include Mexicans and Muslims both to be found under the umbrella term of illegal immigrants *Congressional Record* United States.
