The Audience Is Listening Tom Webster,2024-06-06 How do I get more listeners You are a podcaster And if you were a beast on a David Attenborough nature documentary that would be your plaintive cry This is not a book about how to make a podcast You know how to do that and anyway the tech in podcasting changes all the time This book will be useful to you for the rest of your career because it will show you how to make your podcast better The Audience is Listening is a book of tough love that presents you with a repeatable process to earn and keep an audience You've been told that you need to be passionate about your topic That's true of course But it won't guarantee you an audience No one deserves an audience but you can earn one a body of humans who look forward to your show week after week and make it a regular part of their lives Ultimately every podcaster is producing an entertainment a diversion in a universe full of diversions In such a universe the listener is in complete control You only need to spend some time with them learning from them and their secrets become a little less mysterious It is this arcane knowledge that can turn your podcast into a show a thing people care about enough to tell somebody else about It's that last bit that really matters In The Audience is Listening Tom Webster will show you how to do it

How to Start Podcasting as a Business James L. Board,2020 DON'T STRUGGLE TRYING TO FIGURE OUT HOW TO START AND MONETIZE YOUR PODCAST This book was an expert attempt by the writer to explain the nitty gritty

of podcasting covering what works and what fails from the author's experience in the niche. The book is packed with a series of tips and tricks for anyone who is just getting started in the podcasting business. Professional podcasters will also find it especially useful to increase their podcast presence with the many expert analyses of how to grow their fan base using SEO technology and their social media platforms. This book covers a lot of guides from selecting the right host for your podcasting to choosing the best interview method for your guests. The book also provides expert insight into what counts as trademark and copyright infringement and how to avoid them best. The book describes many of the latest software for audio editing, how to use them, and why each software is needed. The author talks about some of the myths people unconsciously believe which make podcasters get into trouble by using materials that are not theirs and how to avoid getting into trouble. The author also explicitly talks about various ways by which collaboration with a co-host might work for you and how to go about it. The tips about getting the right interview style and what type of guests should not be welcomed is also included. If you are looking for the right fix to get you on the podcasting, then this is the only material for you. You don't want to miss it.
