Beyond Code Daniel Plate, James Hutson, 2025-09-02 AI powered coding tools are revolutionizing software development transforming programming from a specialized skill into an accessible educational practice across disciplines This book investigates how tools such as Cursor AI

GitHub Copilot and Replit's Ghostwriter are dismantling traditional barriers to entry for learners particularly those from non STEM backgrounds by enabling natural language code generation intelligent debugging and interactive project based learning Bridging the gap between theoretical instruction and practical application the book serves as both a guide and a critical framework for integrating generative AI into curricula It highlights how these tools expand the boundaries of programming education by supporting interdisciplinary applications from literary analysis to creative writing thereby making coding relevant and actionable for students in the humanities and beyond The book equips educators with the tools and strategies necessary to incorporate AI assisted programming into diverse academic contexts by offering lesson plans and adaptable project models This resource is essential for instructors seeking to demystify coding promote inclusivity in technical learning and reimagine the role of software literacy in the twenty first century classroom **AI Expert** ,1988

Let's Meet Blockchain Sylvain Metz,2023-12-26 A quiet revolution is taking place within the computer ecosystem one that will change the way we do business on the internet It's called blockchain and it promises to disrupt the way people interact with one another online whether its messaging banking keeping up with medical records land records booking a vacation socializing or voting Programs are also being developed to use blockchain to serve as one's identity papers Blockchain technology is based on the idea that all online transactions should be between two people without the need for public or private third party oversight Blockchain technology developers believe thoughts and ideas should be shared not quashed It's a world where web platforms are governed by their members not a board of directors privacy comes first and one's personal information is kept private not for third parties to take and sell as they please Blockchain technology offers everyone opportunities to take part Anyone can participate in the fast growing world using non fungible tokens NFTs where works of art music literature and poetry can be tokenized and sold or traded on a blockchain These components comprise the next generation of the world wide web which is referred to as Web 3.0 Billions of dollars are being spent to create infrastructure to create a viable framework to mainstream blockchain This book offers a peek into this new world with examples of how this technology is being used today as well as the hurdles including legal challenges it must overcome to be viable So if you're ready let's meet blockchain *Proceedings* Lawrence C.
