Outline of Hindi Grammar, with Exercises Ronald Stuart McGregor, 1995 This book has a twofold purpose first to provide a concise presentation of the essential grammar of modern Hindi with graded exercises which brings beginners as quickly as possible to the point where they can read modern prose with profit and secondly to serve as reference for those consolidating their grasp of the language It is therefore of interest to students beginning courses in Hindi and those who have already learned some People planning to visit India for business or pleasure will also find it useful as colloquial vocabulary and style receive equally detailed attention as the more formal written style The material is presented in roman transliteration as well as in the Indian script so that the beginner can work through the book unimpeded by script problems while still enjoying the advantage of contact with the script from the outset Additions to the third edition include a new set of listening and reading exercises and grammatical index Available for the first time there are two accompanying cassettes containing the complete Hindi text of the original exercises together with the newly added exercises Revised and updated available for the first time with accompanying cassettes *Outline of Hindi Grammar with Exercises* R.
