Summary of Dotcom Secrets Alexander Cooper,2021-10-16 Summary of Dotcom Secrets When you create and manage your posts ask yourself how you want other people to see you But stay true to who you are Find a balance between those two and create the best version of yourself which will make other people in your industry curious as to who you are and how they can network with you Keep all your social media profiles as well as your website consistent If a user goes on your Facebook and sees you as one type of person and then goes on your Twitter profile and sees someone completely different that will just lead to confusion It is okay to adapt to the different platforms as long as you don't lose the essence of who you are in the process This consistency also applies to the visuals you use which should have the same design basis throughout your digital presence and the usernames you go for which in a perfect world would be the same on every platform However that is virtually impossible nowadays because so many people are online and so many user handles are already taken Still try your best to keep them similar Share your posts from one platform on other platforms For example whenever you post a video on YouTube make a post about it on Twitter That way a Twitter follower of yours can also become a YouTube subscriber and your subscriber count To be continued Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book
