Dr Erkan Demirsoy Fue Doctor Istanbul Hair Transplant:

FUE In 7 Days Brian Martin, 2019-10-27 *HAIR IN 7 DAYS* A FUE Hair Transplant Experience was written during the first 7 days of the author's hair transplant experience and is made complete with over 65 photos of the whole progress. It is a must read for anyone thinking of going through a FUE hair transplant operation. The initial writings were kept as a journal on a daily basis in which he describes his initial contact with the company that overtook his travels to Turkey, his travel to Turkey and his first meeting with the company representatives. He goes on to describe the hotel he was placed in as well as his journey to the clinic where for the very first time he came face to face with the surgeon who was to operate on his hair transplant. From this moment onwards he describes his transplant as a patient and explains each step as he experienced it. He leaves no leaf unturned describing sensations, methods and even detailing how he made count of the implants. The author continues to describe the days post operation giving a full description of the medications he had to use and the way he managed to sleep among other things. Most importantly he describes how he felt internally, his insecurities and fears. Further writings were added 52 weeks after the operation together with a series of week by week photos that document the progress. The book ends with a great conclusion together with the outcome of his transplant a year after the operation. *The Hair Transplant* Jamison Haponenko, 2020-01-04 Jamison Haponenko, a busy serial entrepreneur, had his first hair transplant 13 years ago. At that time he was solely focused on growing a thriving glass company he started. Being extremely busy, he neglected to research all of the options available to him. Thinking that bigger might be better, he decided to go with a large, highly recognized company for his first procedure and the results were less than ideal. 11 years later he decided it was time to look at getting a second hair transplant. However, this time he was on a mission. Since then he has spent countless hours in research and has consulted with industry leaders from around the world, all in an effort to find the best hair transplant results possible. This book will take you along his journey as he travels from blindly following the crowd to taking control and finding the best quality results using breakthrough technology at a mind-blowing low price. In the world of hair transplants, there are many confusing words and terms used to describe various techniques and procedures. It's almost like they have their own language. This book breaks all of the confusion out into very easy-to-understand, digestible language, saving you a huge amount of time, frustration, and mistakes. As a BONUS for you, Jamison has included his 19 qualifying questions checklist. This checklist will help you with laser accuracy identify and select the best clinic and/or doctor, insuring you get the best possible results for your individual needs. This book is not about getting the least expensive hair transplant; it's about completely changing lives by helping people like you and me get back your hair with the most natural-looking results at the best possible price.
